ACUPUNCTURISTS –

I can highly recommend Sung Hong (at Wisconsin Ave), phone 240 478 2624. Heike Lingertat hlingertat@comcast.net February 2014

Kelly Welch and Kate Yonkers - are absolutely terrific! Highly recommend both! <http://acupuncture-dc.net> Ksenia Grishkova grishkova@gmail.com February 2014

Linda Miyoshi in Bethesda is wonderful. Her mobile number is 240 353 2790. Her office is close to the Bethesda library. Neela Ranade neela_ranade@msn.com February 2014

APPLIANCE REPAIRS –

I always call Alco Appliance for ALL and any appliance repairs. They were most recently at my home for the dryer but they have also serviced my refrigerator, washer and stove over the past 20 years. They will need from you the brand and model number. I once “described” a sound the refrigerator made and the service manager knew immediately what was wrong. 301 937-6996 and service@alcoappliance.net. Linda Hughes hugs4linda@gmail.com November 2018

We just had a microwave installed. We bought it at BestBuy and it was

installed by Quality Kitchens. We bought our gas stove from Sears and Quality Kitchens installed it as well. They generally subcontract it out.. Very happy with both installations. Leslie Marinaccio
lmarinaccio@yahoo.com March 2017

I have used AA, Inc. out of Woodbridge. Phone 703-690-1000.. Appears to be family run business. Virginia Howard Virginia.howard@ymail.com January 2017

I trust Adrian of FACTOR Appliance, repair@factorappliance.com, (301) 300-8006. Bill Begal bbeegal@begal.net January 2017

AUTO BODY REPAIR –

I have had great success with Autobody Dimentions on Butler Road-Just over the DC line, off River Road. (301) 657-1622?. In case they remember me, Please let them know I gave them a great recommendation for excellent work and best customer service! Marjorie Dick Stuart
Marjorie.DickStuart@longandfoster.com October 2018

I am picking up my car from Guarani Auto Body. They did a great job and it's about 30% less expensive than other places. They are located at 4100 Kansas Avenue in DC. Two thumbs up! Sue Bell suecharliebell@gmail.com July 2017

I would also like to recommend Modern Auto Body in Kensington, Md. We've had to use them four times and they always do a great job and never miss anything. John Kelly lasjkelly@gmail.com July 2017

Autobody Dimensions is the best body shop around. Susan Harmeling harmelings@gmail.com July 2017

I found Autobody Dimensions on Butler Road off River Road reasonable, quick to give an estimate, and pleasant to work with. Barbara Meade barbaremeade53@gmail.com July 2017

We recently had a good experience at auto body dimensions in Bethesda. I don't know how cost-effective they were because our insurance covered it following an accident. But they were very helpful and nice and did good work. Nancie Thomas nanciejim1995@yahoo.com April 2017

Car Wash - I am now a believer! Larry Leigh, owner of 1800carwashdc, came to my home today to detail my 11 year old Toyota 4-Runner. He did a perfect job and is very pleasant with whom to deal. He is dependable and meticulous, and was willing to work with schedule changes on a number of

occasions. If you just can't find the time to take your car in for detailing, I would recommend without reservation Larry to do the job. Larry can best be reached at larry@1800carwash.com. He also can be reached via phone at 202-230-0365, but I found his email the best way to reach him. Virginia Howard Virginia.howard@ymail.com September 2018

AUTO MECHANICS –

I have used Auto Haus for my Mercedes Benz – 25 years old - for years. They are good and far cheaper than the dealer. Al Barr sarahrhorsey@gmail.com January 2019

I rarely do this, but wanted to share with everyone on this listserv that I have the best mechanic ever and he is right here in our neighborhood at the Shell station on Wisconsin Ave. near the old Safeway. His name is Jim and he just saved us. We had a flat tire that he replaced and he also put in new front rotors and brake pads. But more importantly, he noticed that the new shifter we just had replaced at the BMW dealer was installed improperly which was very dangerous because it could shift from drive into reverse without pressing the lock button and without foot on brake. When I took the car back to the dealer, they called a few hours later very embarrassed, apologizing and admitting that the shifter had indeed been installed incorrectly. Jim also cleared out some leaves and debris that was clogging the sunroof downspout for which he charged \$40. The dealer was going to charge \$170 just to LOOK at the sunroof downspouts. He has been doing this for over 30 years and he has worked on all kinds of cars including high-end foreign imports. I highly recommend him. He is also a really nice guy who cares about people. His number is 202-263-9053. Susan harmelings@gmail.com April 2017

The Citco gas stations on Westbard Ave off River Road (owned by brothers) are excellent and reasonable. They were recommended to me and I've taken my car there for 10 years. I've had three friends take their cars and everyone was thrilled with the work and the price. For example, I had the Toyota dealership tell me I needed \$2000 in repairs. Citco told me exactly what needed to be done, what was excessive, and why. I walked away with a \$350 bill. My friend recommended the cheapest dealer for new tires in the area. Citco gave me the same tires for less. Their number is (301) 656-0053. Connie Huntsman constancehun@yahoo.com February 2017

BABYSITTERS & NANNIES –

Our wonderful nanny, who has worked with us both full and part-time for over 10 years, is looking for a part-time nanny position preferably 2 or 3 days a week. Carol is loving, responsible, reliable, intuitive, proactive

and smart. She is amazing with babies and would love to work with a newborn again. She is very active and always takes the children for walks and to parks. She is a non-smoker, legal and does not drive (but navigates the city with ease). She is also allergic to dogs. I highly recommend her and would be happy to give a glowing reference. Feel free to contact her directly at 202-498-1949. Sharon Bennett SMBennett2@aol.com
November 2018

We highly recommend Marisol Sophia Cabana for her nanny services. She is available starting March 5, 2018, and possibly sooner if needed. She is seeking a family to work for full time (5 days per week). Our sincere recommendation is below. To contact Marisol please call 301-503-9861 or email her at marisolscabana@hotmail.com Her native language is Spanish. She speaks English, although is better at Spanish. Recommendation from current family:

Marisol Sophia Cabana worked as a nanny caring for our son and daughter for 5 years (Oct. 2013- 2018). She has done an excellent job and we highly recommend her as a nanny. She did a much better job than other nannies that had worked for us. From the very start we could see that Marisol's integrity, confidence and positive outlook on life was creating a good example for our son. She also did a great job of helping our son get over his eczema (skin condition). Our lives were made easier due to her punctuality and professionalism. We always felt comforted knowing someone we could trust was watching our children. While she was working for us she purchased a safe and reliable SUV vehicle, to make riding in a car safer for our kids. Our kids enjoyed going to the park, and playing with Marisol. The reason Marisol is leaving her role as nanny is due to our kids now attending school most of the day. We will miss her greatly. Her strengths are:

§ Time management. Is on time and available to work all the hours we needed.

§ Models good values and behavior. Marisol is genuinely a kind person, corrects our child in a kind way, and always informs us/parents about our child.

§ Savvy at keeping our child healthy. Did a good job of daily baths, skin treatment, giving lots of water to drink, and avoiding allergens in foods. When our son had colds, Marisol helped him recover quickly.

§ Creative with learning and play activities. She knows dozens of interesting crafts, games and fun things to do for all ages.

§ Independent. She is able to watch our son all day without any assistance. We did show her specific things the first time (heating food, bathing, where things go).

§ Can drive. We take it for granted but Marisol is a good driver and has a safe car. We provided a child car seat for her to keep in her car. If you would like additional information about our experience with Marisol and to

ask any questions, please contact us via email Scot Holliday
sbholliday4@yahoo.com. Scot and Metri Holliday January 2018

BANKS –

I highly recommend National Capital Bank. It's locally owned by a family. It sailed through the financial crisis 10 years ago with no problems. It's never been involved in shady dealings (e.g. Wells Fargo). It doesn't have all the bells and whistles that some of the big banks do, but their folks are real professional bankers. The staff is very friendly. I use the branch on 44th between Harrison and Jenifer. Janet Bachman
jbachman47@gmail.com September 2017

I highly recommend TD Bank, if you're looking for a large bank. Their service is very personalized — they seem to make it a point to get to know customers if you come in on any regular basis. What I love most, other than their good service, is that they actively decided not to have bulletproof glass between the teller and the customer. It speaks to their view of how important the connection to the customer is. Now if someone could just explain the economics of branch locations to me — they all seem to occupy way more space than is required, especially when considering the cost of expensive DC real estate. Tom Hier hier3908@yahoo.com September 2017

I would echo this recommendation. We have mortgage, home equity and checking with TD Bank. They have been great and they have convenient locations both in upper NW and downtown. Tony Bullock
tony.bullock@ogilvygr.com September 2017

Another good bank is the local City First. The nice thing about this bank is that it has a very strong community lending program, making loans to people of color who have been historically boxed out of favorable lending. City First is also responsible for a good deal of funding for affordable housing rehab and new projects around the city (the kind of projects that the big national banks frequently won't touch because of the generally small size of the projects). So your money invested there can help support work that is really great for the DC community! Katharine Landfield
klandfield@earthlink.net September 2017

I second the recommendation for National Capital Bank. Pat Spellman
pspell100@yahoo.com September 2017

We have Capitol One and we love it. I like the personal service at the Friendship Heights location (especially the manager, Agnes). My husband prefers the branch on Massachusetts across the street from Wagshals,

because of the parking. I love their app (especially to deposit checks) and the rewards system on their credit card. Good luck on making a choice.

BICYCLE REPAIR –

It's a little farther afield, but I had a terrific experience at Performance bikes in Rockville's Congressional Plaza. It's large, clean, easy to get to/park near, and handles everything. I recently took my bike in after several years in the outdoor shed, expecting a "tune-up" bill of \$75+. The shop had it for 30 minutes, declared that all it needed was cleaning, oiling and some air, all of which are provided as free services, so they went ahead and did it. Big Wheel Bikes in Bethesda quoted me either \$49, \$69 or more depending on what I needed. So I'd recommend Performance. (I only went there originally because they are Thule dealers and I needed a rack.) Rick Dulaney DULANER1@WESTAT.com 2005

The Pro Shop on M Street, near Key Bridge has an excellent mechanic -- Courtney. One of the best mechanics in the area, he does most of the instructors' repairs that we cannot do in MPD. Another shop - Revolutions, just a few doors down, has excellent service, has always been helpful. There are other shops in DC but these are in 2D. Sgt. Mike Wear

CARPENTERS -

Joe Spagnolo did this (build bookshelves) for me - Xact Builders, (240) 876-1397. He also built a lot of kitchen cabinets for me and a custom office. Nice guy, easy to work with and not that expensive. He's also a small general contractor so can do much more.
Sarah Morse morsekathan@gmail.com February 2018

Bruce Workman. He is excellent. Any questions, email me. His phone: 240-508-2806. Texting him is best. Ann Jones annjones2008@yahoo.com
January 2018

If you are looking for a good carpenter, we have been very happy with the Burriss brothers, Fill (Fillmore) and Tom, at Sayburr Construction. They do any number of things around a house, and construction jobs big and small. Call Fill at 301-343-6303. Susan Beale lilybygate@gmail.com Nov 2016

I have used Dusan Bucany of Dusan Home Improvements - (301) 933-0203. Very skilled, versatile, and fairly priced. squasher@starpower.net November 2016

I can highly recommend George at Atech Home Improvements, 571-226-0651 as he has been doing quality work for our family and neighbors for many years. He stands behind his 20 year reputation of excellence in Washington DC and have recommended him successfully for years to friends and co-workers. George is a Master Electrician and Carpenter. You will not be disappointed. Jeff geekxpert@gmail.com September 2016

CARPET/RUG CLEANERS & INSTALLERS –

I want to recommend a great carpet shampooing service right here in the Palisades neighborhood. Des Pettis has both a house cleaning and carpet shampooing business. She will bring her equipment and supplies to you or use any special supplies that you prefer to provide her with.. Her rates are lower than any commercial competition because she doesn't have the overhead. She is very conscientious and detail-oriented, and her work is superior to any service I have used in the past. Des is, as you would expect, a native English speaker and tech savvy so communication is never an issue. Contact her directly at: Des Pettis, 202-486-2307 cell/text, bluedes47@yahoo.com. Charlotte Perry charmperry@gmail.com June 2013

CATERERS –

I would like to recommend Amelia, from Basilico Italian Catering. She catered a buffet/sit down dinner for 30 people at our house in January. We were very pleased with the result, especially my wife, a demanding cook and cookbook author. We have known Amelia for a long time. She is imaginative, elegant in her presentations, efficient, and very honest. Reasonable prices. You can check basilicoitaliancatering.com and contact Amelia at 1-301-401-9937. Michael Calingaert mcalingaert@gmail.com March 2018

We had a very good experience with Susan Gage two weeks ago. Feel free to call Ann Ashley there at 301-839-6900 and use my name. Jonathan Davidson davidsonj3@comcast.net May 2016

I used Mindy's Catering on MacArthur Blvd and liked them. Very professional and easy to work with. Jean Bolan bolanjc@yahoo.com May 2016

Barb Duvall at Bowl of Cherries is lovely, her food delicious and beautifully presented. We used her for a rehearsal dinner. Her prices were less than some of the DC caterers as she is based in Annapolis. She is happy to come to DC. You may mention my name when you contact her. Barb Duvall, Proprietor, bjduvall@verizon.net, 443.336.6526. Anne Vinson anne.vinson@flash.net May 2016

CERAMICS REPAIR –

I highly recommend Nonomura Studios on Connecticut Avenue in Cleveland Park. I have taken two antique pieces there - they are real experts, very expensive, but worth every penny. They also verbally appraised my pieces and were eager to discuss them. Barbara Dinsmore barbaradinsmore@msn.com January 2009

I recommend Prof. Turker Ozdogan. Please call him at 703-289-2469. Pat Talmon Patrick.talmon@verizon.net January 2009

CHIMNEY CLEANING & REPAIR –

We had a good experience with Priddy Clean. They examined the chimney, told us it was dusty but perfectly safe to use, gave us some tips about using our particular fireplace (we had just moved in and hadn't used it yet), and just charged us for the visit. They were prompt and polite. If you're looking for a second opinion, I would highly recommend them. Liz Scheier liz.scheier@gmail.com November 2018

I like Winston's. I use them personally and so do my in-laws in the neighborhood as well. Pamela Wye pamelawye@gmail.com September 2018

We used My Chimney Sweep Services the last couple years. James is wonderful! <http://www.mychimneysweepservice.com/> Nicole Fisher nikkirfisher@gmail.com September 2015

I used Winston's in Bethesda some time ago and they were really good. I was going to use them again this year. Sebsow Sebsow@hotmail.com November 2015

My roofer said that chimneysweepers also do chimney repair. If you think about it, that makes sense. He recommended Winston's and I used them and was satisfied with their repair of our chimney. John Wheeler johnwheeler.dc@gmail.com December 2015

COMPUTER REPAIRS & HELP –

I have had excellent service from Abraham and Sarah at Advanced Computer Support at 4709 Wisconsin Avenue, NW, 202-237-8827. They are excellent and honest. I have a PC (not a MAC), but I think they work on both. Deborah Raviv draviv363@gmail.com January 2019

I also had a good experience with Advanced Computer Solutions when my MacBookPro crashed and I needed data recovery, which the Apple store was not able to accomplish. The staff at ACS successfully saved my data to my

backup drive and I was able to save it to my new MacBook. It wasn't cheap but I was glad to have the backup. Lyn Taecker lyntaecker@gmail.com
January 2019

Ari Fisher -He was terrific helping me set-up a new computer. L Myers
loucmyers@yahoo.com January 2019

To Communit-e - from the tradesmen's list, I found and just had a terrific tech support experience with Ari Fisher, the tech mensch. He worked through a list of computer and other tech issues, one of which had been unsolved for 2 years. He is prompt, smart and knowledgeable, and patient. I highly recommend him... He may be reached at ari@thetechmensch.com. 202-262-5378.
Lois Schiffer loisschiffer@msn.com December 2018

I second the recommendation of Ari Fisher! Very nice guy, efficient and knowledgeable problem-solver with digital issues an multiple platforms, very fair price. Glad I found him thru the listserv! Martha Matzke
matzke4@att.net December 2018

I third the recommendation for Ari Fisher, The Tech Mensch! Efficient, effective, knowledgeable, and nice. Robin Wolfson robin.wolfson@gmail.com
December 2018

I have been very pleased with Ivan Babinoto for several years. He seems a natural when working on PCs or Macs and has solved many problems and given good advice. A friend of mine called Ivan last week and she was thrilled that he solved her Mac problems. 2 other computer servicers who worked on the problems had not fixed them. Ivan is also likeable and prices are reasonable. 202 285 0887; babinoto@gmail.com. gbbuckberg@aol.com July 2018

I also highly recommend Ivan Babinoto. He's helped me with any and all computer problems over many years. Even went to Best Buy to help me select a new printer. His fee is very reasonable. Barbara Chowney
barbarachowney@gmail.com July 2018

I would like to add my agreement to previous recommendations for Ari Fisher for computer tech support. He quickly diagnosed the problem I was having, fixed it efficiently, and charged very reasonably. He is a pleasant man to deal with. Contact info: ari@thetechmensch.com, 202 262 5378. Ilsa Bush
ilsabush@aol.com May 2018

Had to share that I had an amazingly positive experience with Ari Fisher/The Tech Mensch for a recent computer issue. Ari quickly figured out how to solve my problem, made some suggestions, and explained things simply and thoroughly. He's also efficient, affordable, AND personable..

Kudos galore: Ari Fisher -- The Tech Mensch, 202/262.5378,
ari@thetechmensch.com. R. Wolfson petirrojo@aol.com March 2018

cameron@cameronjonesit.com has been our "go to" source for computer issues for several years. He was a recommendation on Communit-E then, and I highly recommend him now. Reliable, knowledgeable and reasonably priced.. Highly rated on Washington Consumer's Checkbook too! Susanne Koffsky susannekoffsky@gmail.com December 2017

I recently had Justin -- of www.problemssolved.com -- clean up my laptop, including removing unnecessary files and optimizing the Windows 10 environment. He was also able to get an old iPad 2 working that I thought was dead. He's experienced with Macs and PCs and various phones. Easy to work with. Dreaf8@yahoo.com November 2017

I highly recommend Cameron Jones, He helped my husband and me set up new MacBook and showed us how to use many of the features. He's articulate and patient. You can contact him at cameron@cameronjonesIT.com, or 571-217-3596. Texting is a good way to reach him. Jo Levine joannelevine202@gmail.com November 2017

I can also speak for the excellent service and exceptional knowledge about all high tech devices of Justin Polin of Problems Solved. He is also a patient teacher when helping his clients, whether in large offices or individual's homes. Elaine Greenstone ehgreenstone@aol.com November 2017

I would like to add my recommendation to use Chris Ferro as a computer resource person. Chris Ferro, 202-361-6823. He recently healed by SKYPE logging in problem, and also cleaned up my PC, and provided several other tips, all in one hour. He is most personable and capable. I will use again when needed. Patrick Talmon Patrick.talmon@verizon.net December 2017

I would like to add my recommendation for Chris Ferro for computer assistance. He was recommended earlier on this listserv. He cleaned up my computer, solved several issues I was having, and gave me advice for future maintenance to do myself. He explained what he was doing clearly, was efficient with his time, and charged reasonably. Thank you to the person who initially recommended him. Email: cferro@cvf-solutions.com; Phone: 202/361-6823. Ilsa Bush ilsabush@aol.com July2017

I highly recommend Chris Ferro for computer repair. He is extraordinarily knowledgeable and personable. I needed someone to come in the evening because of my current work schedule and Chris was very generous with his time. I am not technologically savvy and he was extremely patient and easy

to work with. He offers very affordable rates for both residential and business clients. Email: cferro@cvf-solutions.com; Phone: 202/361-6823. Please feel free to mention my name.
Carren Kaston ckaston@starpower.net April 2017

CONCRETE/PAVING –

We highly recommend Mario Hernandez Landscape Services (301-464-3249). Last summer he replaced a concrete sidewalk and steps, adding a drain to move water from the downspout away from the house. This spring, he did significant water remediation on the other side of the house. His prices are very reasonable and the value he provides is enormous. Mario and his crews are professional, polite and kind. Mario is very knowledgeable about all facets of landscape and water remediation and generously shares. He identified an issue with our new gutters that was contributing to the water problems that we never would have noticed. You will be very pleased if you call him. As long he's working, we won't call anyone else for any landscape. Mariolandscape.com Denise Niedzolkowski dniedzolkowski@yahoo.com May 2016

Edgar Granados ((202) 439-3082) created a beautiful walkway for me last year. He has done stonework for at least four other homes on my block. I cannot recommend him highly enough. He does excellent work, is reasonable, and has a great eye for design. Julie Mack juliemack1@verizon.net May 2016

CONSTRUCTION –

I recommend Manuel Bartolo of Bartolo Custom Ironworks if you are looking to install new stairway railings. He was recommended in the COMMUNIT-E tradesmen list and I strongly second the endorsement. Pricewise, he and everyone else we interviewed were the same, but he was able to get the job done in less than 2 weeks. It would have been faster had it not been for the snowstorm. Everyone else wanted 4-6 weeks lead time, and one guy said he couldn't work until March due to the cold weather. When I mentioned that to Manuel, he laughed. Also, he installed caps at the base of each railing post, a nice detail that nobody else seemed to offer. He also left me a can of spray paint to cover any scratches he might have missed. Manuel is a friendly Portuguese guy who does quality work. There are photos of his work on his website, <http://www.bartoloiron.com>, but don't bother using the online contact form, as it doesn't work. Just call him at 301-949-0581. Jason Kim pereirakims@verizon.net January 2019
We have used Andres Becker's company. His small company is reliable, tidy, polite and very talented. They built a small back porch for us and we love it. Great quality job and easy to work with. Andres is a real gentlemen

and very smart. HomeWerks, Remodeling and Restoration Services, Andres Becker, President, (240) 498-0500. Charlotte White whitecharlottemarie@gmail.com January 2019
I can recommend my contractor - Joe Spagnolo, Xact Build. 240-876-1397 They have done everything for me - tiling, new kitchen, new closet, replaced doors. Joe is also a master cabinetmaker, so he's built cabinets and a big office desk/shelving system for me too. He does beautiful work and is always on time and on budget. My kitchen took 9 days - actually one day less than he told me it would. Sarah Morse morsekathan@gmail.com December 2018

William Feeney, who lives in the neighborhood, did a wonderful job on the design of a first-floor addition to my house, and his contractor, JS Construction, did first-rate work. They were lovely to deal with, and were always accessible during the project. I highly recommend both. Bill Feeney's website is: Bill Feeney, Architect, LLC | www.billfeeney.com. Martha Matzke matzke4@att.net September 2017

We just finished a bathroom renovation and have nothing but praise for our contractor, Ahmad Khreshi of Home Perfection Inc. Ahmad was thoughtful, creative, and patient with our many questions. His crew was absolutely meticulous. We were astonished by the stringent measures taken to control dust and mess, and the final product is beautiful down to the last detail. When we discovered after the job was done that the plumber (a sub-contractor) had made a small error, Ahmad insisted on putting it right at no charge. The cost of the project was significantly lower than the bid of a large regional bathroom-renovation company. There are a number of testimonials to Ahmad's work on other D.C. listserves. His contact information is at his website, <https://homeperfectioncontracting.com/>. Timothy1959@aol.com June 2017

I would recommend Jim Doyle--jjdoyleinc@verizon.net. They just re-did my laundry room and I have been very happy with the results and with the overall professional job they did. Jean Bolan bolanjc@yahoo.com May 2017

DC CITY GOVERNMENT –

Parking Tickets - You have to write a letter appealing your ticket, see the instructions on the ticket. I have nearly 100% success rate when I appeal the tickets I receive. Make a copy of your pass and the letter you send. Then send it via priority mail with receipt that it was received. Then wait, which can be up to six months. Keep track of your tickets. I know this is a pain to do, but your only other option is to pay the ticket, which, of course, is what they want you to do. Ann Eichenberger
aeichenberger@gmail.com February 2012

Parking Tickets - You can now appeal tickets through the web which I have used a few times and works great. Scan the documents, upload them and you get a receipt. If you join the eTIMs system (<http://dmv.dc.gov/serv/ticket/EmailTicketAlertService.shtm>) it will email you once the appeal is decided and also email you when you get tickets in the future. Adam Tope adam@adamtope.com February 2012

Street Lights - Call 311 to report street lights out. You will be given a service request number. The light should be replaced within two days. They come at night to do the repairs. Please report the yellow and black number on the pole and tell if the pole is wooden or metal. Also give the address of the house closest to the light pole. If it is not fixed within two days, call back to speak to a supervisor and give your service request number. That should work. Samantha Nolan nolantutor@yahoo.com February 2012

DENTISTS –

I like Michael Bauer, who is on Wisconsin Avenue in the building right next to the Red Door — same block as what used to be Kinko's and is now FedEx. He is in the same practice as Dr. Donohue, who is also wonderful, I understand. Dr. Bauer does his own dental hygiene work, which I really like. Everyone in the office is warm and friendly. Ann Ingram
anningram@mac.com December 2018

I second the recommendation of Dr. Bauer. Susanne Koffsky
susannekoffsky@gmail.com December 2018

I highly recommend our dentist, Dr. Joncas at Joncas Family Dentistry (202) 363-5840. We started seeing his father when Dr. John Joncas was a professor at Georgetown U.. Dental School (since closed). The younger Dr. Joncas (Ty) keeps abreast of the latest techniques and updated equipment. Adele Natter anatter@verizon.net

I like Dr Joncas very much also. Like you, I was a patient of his father and liked him and now like the son also. A very nice small practice. Jean Bolan bolanjc@yahoo.com December 2018

We like Gene Giannini at 4801 Wisconsin Ave. 202-244-4111. Lynette, the Dental Technician there is also excellent. Kathy Smith kathysindc@gmail.com December 2018

I'll second the nomination of Dr Gene Giannini, and I know my husband would pile on as well. His practice is very current, and everyone there is warm and welcoming. Cindy Snyder cindysnyder123@gmail.com December 2018

I highly recommend Maria Nichols, 5100 Wisconsin Ave., Suite 310, 202-363-1158. We've gone to her office for at least 20 years. She's extraordinarily competent, caring and gentle. Aaron Epstein aajacks@starpower.net September 2018

I also readily recommend Dr. Maria Nichols, located above Rodman's. She is terrific - highly professional, very knowledgeable, always on time, with a marvelous staff, and a great sense of humor as well. Bette Land betteland@hotmail.com September 2018

Have to second that recommendation. Our family has also been served by Dr Nichols for 19 years. Dennis Shumaker 4dennis.shumaker@gmail.com

My family and I second the strong recommendation for Dr Nichols in the Rodman building. Catherine Vial Catherine_vial@yahoo.com September 2018

One of the best anywhere in professional expertise as well as in warmth of personality, humor and caring is Dr Stan Shulman -- and he is in the neighborhood at 5002 Massachusetts Avenue, with parking easy off the alley behind the house with direct access to the offices. Phone number is 202-966-3100. Elaine Greenstone ehgreenstone@aol.com September 2018

DOCTORS – (arranged by specialty)

AUDIOLOGIST - If you're looking for an Audiologist, I recommend Elise Ney at 49th St. and Mass. Ave.. (across from Spring Valley shopping center). Her number is 202-363-4300. She spent a lot of time with me and didn't make me feel rushed. Kathy Smith kathysindc@gmail.com September 2017

AUDIOLOGIST - I can recommend Gail Linn; she has a PhD in audiology, is a caring person, and has reasonable rates. She's at 11300 Rockville Pike (near White Flint); 240-477-1010, potomacaudiology.com. Joanne Levine joannelevine202@gmail.com April 2015

AUDIOLOGIST - I highly recommend Dr Leisa Lyles-DeLeon at Ascent audiology. She is very patient-focused and explains everything in great detail and very well. Her office is near AU at 3301 New Mexico Avenue. Phone is 202 621 6374. The previous audiologist I visited downtown was only focused on selling me hearing aids, she is not. Unfortunately, in most cases, health insurances cover very little. Cigna and BCBS are the most generous. Catherine Vial Catherine_vial@yahoo.com April 2015

AUDIOLOGIST - I recommend the Georgetown University Medical Center's Audiology department. They're located in Glover Park near the Holiday Inn on Wisconsin. Or to be less specific, but more precise, I recommend not using a business that both tests hearing and sells hearing aids. John Wheeler johnwheeler.dc@gmail.com April 2015

AUDIOLOGIST - I second the recommendation for Dr. DeLeon. Carolyn Parr carolynparr@hotmail.com April 2015

AUDIOLOGIST - I also second the fine work and excellent communication skills of Dr. Leisa Lyles-DeLeon. She is included in the Washington list of Top Doctors. <http://www.ascentaudiologydc.com/>. Ron Springwater rkspringwater@starpower.net April 2015

ENT - I recommend The Feldman E.N.T. Group, P.C. which has four office locations, the closest at 5454 Wisconsin Avenue, suite 1535 in Chevy Chase. Telephone # 301-652-8847. All of the doctors are excellent. For further information, check www.e-n-t.com. Kay Springwater rkspringwater@starpower.net September 2017

GASTROENTEROLOGY - I like Dr. Lester Marion at 5550 Friendship Blvd. - just over the District line, behind Bloomingdales. 301-656-3555. Kathy Smith kathysindc@gmail.com October 2017

GERIATRICIAN - Bob Jayes, whom we originally met as a Janney parent years ago, is a fabulous geriatrician with GW. He actually made house calls for both my parents. <http://www.gwdocs.com/physicians/robert-l-jayes>. Judy Bauer jrmbk@msn.com January 2018

NEUROLOGIST - Carrie Dougherty is a wonderful neurologist at Georgetown who specializes in headaches. Alfred Chahine chahine1@mac.com August 2015

NEUROLOGIST - I have used, and sent others to, Rhanni Herzfeld, in the Neurology Center. All have been extremely pleased with her qualifications, competence, easy manner, and helpfulness. Rhanni Herzfeld, (301) 562-7200, 2141 K St NW, Suite 503, Washington, DC. Their web portal is:

kstreet@neurologycenter.com . In general, it is an excellent practice — I have dealt with two other MD's there, though now retired. Hope this helps, Nancy Gordon nancymg@mac.com August 2015

NEUROLOGIST - I had an absolutely horrible experience with Rhanni Herzfeld's office and would be happy to provide details to anyone who would like to contact me. I recently changed neurologists. First time I have switched doctors in all the years I have lived in DC. Virginia Howard Virginia.howard@ymail.com August 2015

OPHTHALMOLOGIST - My ophthalmologist is Dr. Kenneth Schwartz at Washington Eye Physicians & Surgeons, 301-657-5700 and I recommend him highly. The group is located at 5454 Wisconsin Avenue in Bethesda in the Barlow Building. All of the physicians in the group are excellent. Kay Springwater kayspringwater@gmail.com October 2018

OPHTHALMOLOGIST - Some 10 or more years ago, I was referred by top physicians at Mt Sinai Hospital in NY City to Dr Frank Ashburn of Eye Associates of Washington DC at 4910 Massachusetts Avenue (Suite 21). Phone is (202) 686-6700. Through the years, I have benefited from not only his own excellence and his caring help but that of his colleagues, including younger members of the highly recognized practice. Their highest-rated professional experience and their warm and knowledgeable personal attention have helped through surgeries, regular checkups, and even general recommendations and support concerning many issues such as needs for the eyes when traveling. All staff in the offices are intelligently helpful.. As you will find looking into various ratings by fellow physicians, these are among the very finest of ophthalmologists and they have an office in the neighborhood. Elaine Greenstone ehgreenstone@aol.com October 2018

ORTHOPEDIST - I have had good care from Dr Anthony Unger who practices at Washington Orthopedics and Sports Medicine. I like that he operates at Sibley (all new orthopedics setup in the new building), but sees patients in Chevy Chase as well as at Sibley. I had knee arthroscopic surgery 3 years ago and a hip replacement last October, and will likely see him again when I need knee replacements. WOSM at Sibley is linked with an excellent physical therapy group called Smart Therapy. I highly recommend them as well. Lyn Taecker lyntaecker@gmail.com June 2017

ORTHOPEDIST - I've had injuries to both shoulders successfully treated by Dr. Robert Nirschl, orthopedist and surgeon at the Virginia Hospital Center. He also runs a clinic (Nirschl Ortho Clinic) in the same building that has rehabbed leading sports figures, e.g. tennis and baseball stars. (703) 525-2200, 525-5542. squasher@starpower.net March 2017

ORTHOPEDIST - I second the recommendation of Rudzki. He successfully

treated my damaged rotator cuff, following dealing with a broken leg.
Nancy Gordon nancymg@mac.com March 2017

ORTHOPEDIST - Dr. Jonas Rudzki of Washington Orthopedics and Sports
Medicine. Excellent for shoulders. Operated on me for rotator cuff in 2014
and I have a full recovery. Helen McConnell hhmccconnell@gmail.com March

PRIMARY CARE - Dr Michael Grady (Internal Medicine and Geriatrics) at 4910
Mass Ave is superb!
Linda Wiessler-Hughes michaellinda88@hotmail.com October 2018

PRIMARY CARE - My family doctor is Dr. Ali Safayan from Restorative
Health. I've been under his care for over 10 years. He focuses on
maintaining the health and well-being of his patients and on preventing
heart disease and other age-related diseases or health problems caused by
an unhealthy lifestyle. I've been very pleased with his care. A few years
ago I injured both knees and had pain when exercising. Dr. Safayan
suggested I try prolotherapy before I explored surgery. He administered
the prolotherapy treatments on my knees. The treatment was successful and
I avoided knee surgery. I would highly recommend Dr. Safayan. Sharon
Hurley kenwashdc@yahoo.com December 2015

RHEUMATOLOGIST - Eugene Miknowski is great. He is at (202) 296-4002 and
1145 19th NW, #504, DC 20036. Nancy Gordon nancymg@mac.com January 2017

RHEUMATOLOGIST - I highly recommend Joseph Laukaitis, who is both
knowledgeable and caring. His office is at 2141 K St.NW; his phone is

Joanne Levine joannelevine202@gmail.com January 2017

RHEUMATOLOGIST - The office of Arthritis and Rheumatism Associates at 5454
Wisconsin Avenue in Chevy Chase is a good source for outstanding
rheumatologists. Telephone: 240-514-5614. They also have a very good
Physical Therapy group at the same location. My rheumatologist in the group
is Dr. Justin Peng, but he is in their K Street office. Kay Springwater

DONATE ITEMS –

Books - Turning Pages is coming to pick up all our books tomorrow. They
were fast to reply and happy to have them text books included So many
folks emailed asking me what I found out that I wanted to share this
quickly. Seems like a great organization <http://turningthepage.org/>.
Lori Rolnick lrol@aol.com October 2018

Books - Friends of the Library will take donated books and provide a receipt for your tax purposes. The Tenley Friendship Library at Albemarle and Wisconsin is a member of the organization as are other neighborhood libraries. You must first join the Friends but the fee is minimal - e.g. \$10.00 or more if you like. The Opportunity Shop at St. Albans Church at Wisconsin and Massachusetts also accepts donated books, clothing, artwork, etc. I've used both of these groups. Second Story Books in Dupont Circle also takes a limited number of used books and will give store credit. Hope this is helpful. Kay Springwater rkspringwater@starpower.net August 2017

Books - Depending on the number of books you're looking to donate, try the Little Free Libraries scattered throughout our neighborhood. They are small sidewalk boxes designed to hold maybe 20 or so books. There's one outside Janney Elementary School on Albemarle Street right by Tenleytown public library, and I've also seen one on Yuma Street somewhere between 49th and 42nd Street. You simply place the books in the box by the sidewalk, and can borrow one in return if you want. Amanda Daghish ajdaglish@gmail.com August 2017

Books - My church takes donations to the Montgomery County Jails periodically. You can drop them off at our church, at: 5601 Wison Lane, Bethesda, Maryland. Call Debbie Crown, our church administrator, to figure out a time that works for all, and to find out the kind of books they are looking for (not very restrictive, but one thing I remember: no martial arts books...) at (301) 986-1137. Johanna Koolemans-Beynen hjacoba@yahoo.com August 2017

Books - There is a book donation bin from discover books (similar to better world books) in the parking lot of palisades Safeway. It's in the corner, near the Lions Club trailer. Stacey Marien samarien@yahoo.com August 2017

Bikes - When you have a bicycle you don't need anymore, consider donating it to Bikes for the World, a wonderful charitable organization created by Keith Oberg, one of my former colleagues. The mission of the organization is (1) to make quality used bikes and bike parts available to lower income people and organizations in developing countries to enhance lives and livelihoods; (2) to generate skilled employment in bicycle repair and maintenance work in these countries. To date, the organization has sent 116,000 bikes to developing countries. The 2015 Catalogue for Philanthropy of Greater Washington lists Bikes for the World as "one of the best small non-profits. Lyle Brennemen lb1119@aol.com Sept 2016

I echo the strong recommendation of A Wider Circle. I have donated items in good condition to them for some time. You can also drop off smaller

household items and clothing appropriate for work and/or job interviews. The organization provides a range of services and seems to do a wonderful job helping people get back on their feet. Do call to make sure that they take what you want to donate. Ann Phillips phillipsann1@gmail.com July 2016

A Wider Circle : I've taken items there: clothes, plates and silverware. They are different than other organizations - because they actually give the items to people in need.. They told me they really appreciate professional clothes and shoes. So if you do have items, I would recommend you use A Wider Circle as opposed to Martha's Table, Good Will or Salvation Army. Heather Roby hmroby@gmail.com July 2016

Clothing - I recently asked about charities that accept clothing for women who are trying to get into the work force and need some acceptable clothing. I ended up taking such clothing to the Friendship Place development office next to Rodman's (202-248-3090) - <https://friendshipplace.org/give/supply-an-essential/>.

About Friendship Place: Friendship Place! Our AimHire office is on the 5th floor of the office building above Rodman's. We help currently and formerly homeless people (all genders) get jobs. We have a closet with donated clothes appropriate for wearing to job interviews. You can bring clothing for donation to us weekdays between 9 and 5. Best to call first. Betsy Paull, AimHire volunteer.

Some other similar charities that were recommended by readers are the following:

-- Suited for Change <https://www.suitedforchange.org>

-- Wider Circle takes professional clothing as well as furniture and household items. I have donated suits, blouses, etc. for women who are trying to get into or back into the workforce.

-- Dress For Success

Assistive Devices – Iona Senior Services at 42nd & Albemarle loans and gives away for free all manner of donated assistive devices, including wheelchairs, rollators, canes, walkers, etc. Just give them a call and tell them what you have, then drop it off. DRIVING INSTRUCTORS –

Someone requested information on a driving instructor for their teenager. I highly recommend "Officer Wilson", a retired policeman who teaches teens to drive. (His son also teaches this.) He was incredibly good with our son. He even goes with his students when they take their test. Everyone at the test site knows him - and they also know that if he taught this kid, this kid knows how to drive! His # is 202-581-6256. His son's # is 202-438-9038 - Glenn Wilson. DRYCLEANERS –

Polyclean on River Road will do bulk dry cleaning. Tory Ruttenberg vrutten@aol.com July 2012

Valley Cleaners, on River Road right next to Talberts Ice & Beverage (in the same building, actually) will dry clean in bulk (16 pound increments). You might need to dry clean two or three to get your money's worth. Fred Vinson fvinson@flash.net July 2012

ELDER & NURSING SERVICES –

A wonderful health care aide is available. She works part-time at an assisted living facility where a family member lives so I've seen her at work. She is bright, energetic, enthusiastic and can handle a variety of tasks: personal care (bathing, dressing, etc.), companionship, driving to appointments and errands, preparing food and feeding, medication reminders, range of motion assistance, etc. Genevieve Goh can be reached at 240-614-0926. lastrayer@aol.com September 2018

I suggest turning to Iona Senior Services! We are so lucky to have it in our community not only for the services it can provide but their knowledge of others who can help if they cannot. 202-895-9448. Ann Ingram anningram@mac.com July 2018

I recommend Lorena Santa Cruz. Lorena has been a companion – but really a best friend and like a daughter – to my elderly mother for the past few years, helping her with everything from bathing and cooking to combating loneliness by engaging her in conversation, inspiring laughter, and taking her on outings and walks in the neighborhood. Lorena has adeptly adapted

her duties to health aide work as my mother's condition has declined. I cannot speak highly enough of Lorena, who is reliable, caring, and takes initiative. Lorena is available on weekdays approximately 10am to 2:30pm, though days and hours can be flexible. You can contact Lorena directly at 240-686-9005 or contact me (mheller2000 at hotmail dot com) to get more information about Lorena. Mheller2000@hotmail.com April 2017

FENCES –

Nino Vidal of All American Fences ((703) 731-7035 / (571) 267-9986) was referred to me by several friends. Earlier this month he replaced the large front section of my fence on 49th at Alton Pl. His crew was wonderful and worked tirelessly. He was the most reasonable of the bids I received. I cannot recommend him highly enough. Julie Mack juliemack1@verizon.net May 2014

FINANCIAL ADVISORS -

Would recommend Constance Miner, she's been very helpful for retirement planning and a great steward of my retirement funds. She is with Steward Partners, 240-800-3440 and constance.miner@stewardpartners.com. Merrilee Harrigan merrileeharrigan@yahoo.com September 2017

My recommendation for financial advisor is Russell Wild. He has handled my portfolio for ten years or so and has done very well. His web page is:

www.Globalportfolios.net and email: www.russellwild.com.
susanwashdc@comcast.net June 2012

If anyone is in need of a financial advisor, I would like to suggest contacting Will Bruno, a fellow Tenleytown resident who has been helping me and my family get our financial house in order. He is professional, well informed, friendly, and generous with his time. In my particular case, I wasn't looking to hand over my portfolio to someone to invest or manage.. I handle our investments myself but was in need of some big picture advice on improving our cash flow, implementing a tax-efficient college saving plan, and putting my family on a budget. Will has provided solid advice, done some financial modeling for us, and recommended concrete actions that are going to immediately save us hundreds of dollars a month while increasing our overall financial security. My family's finances were relatively solid to begin with, and our needs are relatively straightforward. I get the impression Will is capable of dealing with much more complicated and involved situations. He helps people with large asset bases to develop and implement comprehensive financial strategies. He also specializes in retirement planning. Will's email is William.Bruno@axa-advisors.com and his number is 202-669-0280. I believe he will give you an initial consultation for free. Please feel free to contact me for additional reference info. Jason Y. Kim jasonykim@verizon.net February 2013

FIREWOOD -

Last year I tried to help someone who wanted to buy a cord of firewood, but it turned out I had the wrong number for our great supplier. Just saw him, and in case anyone is looking this fall, his name is Roy Seal, and his phone number is 540 209-4804. We've bought wood from Roy for years and been totally satisfied: fireplace lengths, generally seasoned, fairly priced, and he stacks it. In fact, because our woodpile is fairly far away, he stacks a starter pile on our back porch – very helpful when my husband was ill last year. Enjoy your fires this winter, and I hope you get in touch with Roy. Betty Bullock fabullock@erols.com September 2018

For a number of years I have bought good quality firewood from this person: Kenny Corbin 540-522-0381. Jeffrey Drobis jeffdrobis@gmail.com February 2018

We are pleased with the wood and service provided two weeks ago by Jerrell Johnson, 202-680-4028, and his son Jerry Johnson, 202-744-3821. Sally Haskell sallyhask@yahoo.com December 2013

We have used Darrell Jasper of D and R Seasoned Firewood Service for several years and have been satisfied. He will even take the trouble to put

your old wood on top when he reloads your woodpile! Cell 540-718-8665. Bob Jayes and Ginny Callanen rjayes@mfa.gwu.edu December 2013

Try FiveStar Firewood (www.fivestarfirwood.com). They supply USDA-certified kiln-dried wood to many restaurants in Fairfax/NOVA. I just took delivery of a half-cord myself a little over a year ago, and it should last another couple of seasons. I recommended them on this listserv last October, and I do again. They offer the best wood I've ever had the pleasure of setting alight. No paper or kindling necessary, a simple paraffin starter and one match is all it takes. Eric Kohis Sapru-kohis@rcn.com December 2013

FLOOR INSTALLERS & REFINISHERS –

Call Rivas Wood Floors (301) 466-3063. They have refinished bedroom and hall floors for me in 2013 and 2017. They are professional, nice, and do a great job. I will call them again when I have the energy to get my living room done. They will move all of the furniture. Janet ngeej@yahoo.com June 2018

Contact Javier Licon at jlicona2@yahoo.com or cell: 240-604-4366. He is truly the best! He works alone because he doesn't trust others to do a perfect job. He recently refinished our kitchen floor for a very good price within 2 days. Superb work. Vered Drazen vered.drazen@gmail.com June 2018

Avoid Universal Floors. Our contractor used them to refinish our oak floors. They did a horrible job for us. The supervisor couldn't see the poor quality of the work. A couple years later our contractor made the comment 'they were terrible.' Wish he had known that before. It's the luck of the draw. Like painting contractors, they hire subcontractors during busy times and don't vet them. Randy Hill cicada17@starpower.net June 2017

GARAGE DOOR REPAIR –

I just wanted to say that I had a bad experience with Clozermatic, they did not return my calls and kept me waiting a whole day for nothing. When they finally came in January they did a bad job. However, I wish to recommend BBB garage door repair (301) 309-9100. The receptionist is very pleasant and she sent someone immediately yesterday when the garage door wouldn't close! GAS FIREPLACES –

James Wheat & Sons installed our gas logs. We've been very happy with them. 301-670-1944. Pat Mullan mullandoty@aol.com December 2015

GUTTER CLEANING & REPAIR –

In June we had very old gutters replaced on our home with new covered gutters. We were very satisfied with Jim Motran, who was recommended by our builder. Motran Home Improvements, <http://www.seamlessguttersbymotranhomeimprovement.com/>, Tel 301-231-3537, 1057 Taft street, Rockville MD 20850. Danna McCormick dannam@verizon.net July 2018

Miguel Guierrez who is a Tenleytown resident. He does a terrific job and charges me only \$125 for my smaller home -- yours may be larger and be a little more for gutter cleaning. He can be reached at 202-316-4770. Don't wait too long -- snow and ice can clog your gutters and cause interior water damage. Christine Phen_d@hotmail.com December 2017

I have been using Darryl Hawthorne for roof repairs and gutter cleaning for sometime now. He's reliable, professional and does exquisite work. Darryl often accompanies his men and they spread themselves on all sides of my house the minute they arrive. They come three times annually -- mid-Fall, early Winter (like Mid-January) and again in late spring to remove all of the 'stuff' trees drop then (stamens from flowering fruit trees, whirligigs from maple trees, etc). He sends me an email to say they will be at my home next week, then he sends an invoice when they've finished. I pay him \$200 for each cleaning which includes a front porch and a garage. When he sends the initial email he asks that you let him know if you see or know of any roof issues. I once told him that a seam on a copper gutter was leaking and they repaired that when they did the cleaning. Another time I called to tell him that a tree branch had punctured my garage roof in two places during a bad storm with lots of wind. He happened to be working in the neighborhood so they came to me and gave me a temporary patch returning a week or so later to make the permanent repair. He is not cheap. But I expect his prices are in line with other very good roofers. Contact info is 301 370-2210 or extremeroof@comcast.net. He's one of my favorite workmen. Tell him you got his name from me. GYMS –

I'm a longtime member of Northwest Sport & Health on Brandywine Street. It has an impressive array of exercise and fitness classes. I've found it very helpful. Highly recommend. Kathy Smith kathysindc@gmail.com June 2017

I have been going to Crunch, north of Rodman's on Wisconsin Ave for 1 1/2 years. I think it is terrific – no frills, people of all ages and all skill levels, less expensive than Sport and Health. Check it out. Sarah Horsey sarahhorsey@gmail.com June 2017

I've also been going to Crunch for several years and find it very suitable. Parking is an added benefit. Felisa Siegel frfmsiegel@msn.com June 2017

I would highly recommend Crunch on Wisconsin Ave near Rodman's. The gym is clean, the staff is courteous and they offer many group classes throughout the day every day of the week. My wife and I have been members since the club opened several years ago and we are very pleased with it. Also,

various merchants in the area offer discounts to Crunch members. Kenneth Hurley kenwashdc@yahoo.com June 2017

Try Northwest Sport and Health on Brandywine, just off Wisconsin and around the corner from CVS. I find that just right. There is also Tenley Sport and Health, which has a track and pool, but is more pricey. That is a bit farther south off Wisconsin. Jacqueline Epstein triosuite@starpower.net June 2017

I've been a member if the Brandywine Sports & Health for numerous years.. If you're good at working out by yourself, it's adequate but it is convenient. Other than the reception folks, all of the employees do their best to ignore you. When the 'group' exercisers have a class., it is difficult to get to the resistance machine but the free weights are available. Also when joining, getting them to detail the various pricing options, and there are big differences, is difficult. John Kelly lasjkelly@gmail.com June 2017

Crunch! next to Rodman's on Wisconsin is so much better in every way, and they have free parking. Their staff is plentiful and helpful. I have been a member since they opened, and I cannot say enough good things about them. Lori Annaheim lannaheim@mindspring.com June 2017

I will add my recommendation for Crunch. Check out local discounts as part of membership. Judy Clear j.clear@starpower.net June 2017

HANDYMEN –

Hang Blinds - I recommend Wayne Fisher, who just did the same thing for me. But he has a minimum of three hours of work, so this would only work if you have other things for him to do. His number is 202-232-3781. Catherine Vial Catherine_vial@yahoo.com November 2018

Wallpaper Hanger - Highly recommend Kim Larson at (240) 888-1455 or kllkimmer@comcast.net
Does fine, careful work and is very pleasant to work with. Helen McConnell hhmccconnell@gmail.com October 2018

Javier Licona has done several projects at my house and at other CC neighbors. He offers the best quality/price ratio I've had so far. His contact: (240) 604-4366 or jlicona2@yahoo.com. Responsive and responsible on the top of his professional qualities. Vered Drazen vered.drazen@gmail.com July 2018

Steve Prince lives in the neighborhood and does all sorts of handyman and gardening jobs. He's semi-retired and does this as a moonlighting gig.

He's willing to do small jobs, will tackle almost anything within reason and is very nice to work with. He's done several jobs for me. He's very meticulous, reasonably priced, and brings his own tools. He can be reached at SJPrince@verizon.net. Kathy Smith kathysindc@gmail.com October 2017

I just wanted to recommend Larry Paxton to anyone who is in need of a carpenter/handyman. He is already on the database I believe but he really is quite amazing! There is nothing that he can't do and his prices are very reasonable. He can fix absolutely everything, he can paint , build fences, does any kind of carpentry work and so much more ! He can be reached at 240 675 - 1978. Barbara Barbara.elsas@gmail.com October 2017

We just had some work done around the house by David Ochoa, and if you're looking for help with jobs around the house—large or small—we would highly recommend his services. We found him through this listserv five years ago. For us over the years, he has replaced doors, repaired plaster, re-fitted a window well, installed an exhaust fan and new floor in a bathroom, devised clever solutions to otherwise irreparable problems...you get the idea.. He's reasonably priced, a good workman, extremely pleasant, and very reliable. You can contact him on his cell phone (202-409-6921) or by email (jdochoa59@gmail.com). vadenfamily@verizon.net September 2017

I highly recommend Wayne Fisher, who is both very handy and a really nice and fascinating guy who lives in Woodley Park (so his tax dollars stay in DC, I love hiring people who live and pay taxes in DC!) While he does not do drywall or plumbing, and does just the basics on electrical, he's just wonderful on everything else. Here is his contact info: Wayne Fisher, Fisher HomeWorks, 202-232-3781, homeworks1@verizon.net. I just hired him to do a few things that my husband was SURE he could do, but which were just not getting done on our own time. Well worth Wayne's price (which is very reasonable) to knock those things off the "to-do" list. Teresa A. Gruber tgruber@starpower.net September 2017

I have used Pat Turvey, who grew up in this area, for several projects and have found him to be excellent and easy to work with. His rates are very reasonable. Phone: 703-241-1061. Kathy Smith kathysindc@gmail.com July 2017

Mike Hotka, handyman, laid his hands on my gutter-fed underground drainage pipe and performed a miracle. The pipe was impacted with dirt. I initially hired a plumber who used an electric snake but was not able to clear the pipe. Next I used the services of a rocket rooter technician who claimed that he was unable to clear the pipe because it was broken. I then thought of Mike Hotka, who had completed several home improvement/repair

projects for us in the past two years. Mike dug up the pipe and determined that it was not broken. He was able to clear the mud by hand (Mike was actually up to his armpit in mud) and using a water hose. Mike found that the ground had settled over the years and that the elbow connection to the drainage pipe had separated, allowing mud to seep in. After clearing the pipe, he reconnected it, fixing the problem. And the best part – Mike’s fee was reasonable (less than either of the two earlier failed attempts. I am happy to recommend him. His experience and competency really shows in his work. Mike’s email address is mikehotka@gmail.com. kenwashdc@yahoo.com

I have had a great experience working with Jesus Baptista 703-231-0486. He is a very intelligent and hard working, a native English speaker who is not fazed by any problem. He can do just about any carpentry or other jobs around the home. I very highly recommend him to my neighbors.
dbvitz@gmail.com May 2017

For anyone who is looking for a Handyman, I recommend Mike Hotka mikehotka@gmail.com (202) 364-8577. Last year Mike restored the wood banister and railing to the stairs from our first floor to our second floor. The outcome was beautiful and the banister and railing looked like a work of art. We were so pleased with his work that this year we hired him to complete several home improvement/repair projects. He laid tile in our laundry room, did some wood crafting to customize a window, and did carpentry work and painting, and some plumbing work. His work was performed with great care, we were very happy with the outcome, and the price was very reasonable. Additionally, after the job was completed, we asked him to return for a minor job that we had forgotten to include with the initial list of projects, and Mike did the work at no charge. kenwashdc@yahoo.com

I highly recommend Mike Hotka. He lives in our neighborhood and can do darn near anything that needs to be done. He’s completely trustworthy and reliable, and his rates are reasonable. Email is mikehotka@gmail.com.

HEATING & AIR CONDITIONING –

Based on a recommendation by Susanne Koffsky, I used Dennis Hammett, 301-972-7883 to check out my furnace and humidifier. I was really impressed and will use him again. The original recommendation was from the January 2017 Service Providers List in COMMUNIT-E. Here is that original recommendation: Dennis Hammett, whose contact information is: 301.972.7883; Hammett.HVAC@gmail.com <mailto:Hammett.HVAC@gmail.com>. Dennis has been servicing our AC and furnace for almost 20 years, first as an

employee of Wm. F. Collins; now as an independent contractor (he struck out on his own after Collins closed shop a few years ago). He is very competent, reliable, honest, and reasonably priced. SusanneKoffsky susannekoffsky@gmail.com mailto:susannekoffsky@gmail.com March 2015. On another note, I was NOT impressed with a representative from CroppMetcalf who tried to sell me several major repairs to my furnace that were not needed. Beware of CroppMetcalf. Kathy Smith kathysindc@gmail.com November 2018

I've been happy with Rod Miller. I have a service contract with them, which has been helpful. Jean Bolan bolanjc@yahoo.com November 2018

We have had good service for AC/heating systems from Petro (pronounced Pee-Tro). Petro Service: 410.238.4000, 1.800.645.4328. Tony Bullock tony.bullock@ogilvygr.com November 2018

We have been very happy with Comfort Solutions. Cynthia Grant Cynthia.l.grant@gmail.com November 2018

I highly recommend Marlon Perez at HD Johnson. I had them take out my previous AC system and install a multi zone and install a multi-zone Carrier system a decade ago. I had gotten a bid from them initially. Did not use them. Learned my lesson after the initial installer and three subsequent ones proved insufficient to the task. I will not let anyone touch HVAC in my house Joe Pinder oohlikewowman@yahoo.com September 2018

I found Comfort Solutions on this listserv as an A/C service company. Honestly I wish I could clone the company for other house-related services. They were truly exceptional. Our AC died the week of July 4. During that holiday week, Comfort was able to provide us with multiple estimates and install the new units. The installers were very professional, efficient, clean, and knowledgeable. The customer service rep could not have been more friendly and patient. Catherine Vial Catherine_vial@yahoo.com July 2018

I've gotten a few requests from the neighbors to compile and share the list of all the A/C companies that neighbors have emailed me directly to recommend so here it is. Pardon the way it's compiled, to make sure I get this list out ASAP to those in need I was just copying and pasting directly from emails. I hope this is helpful to many. It seems these services are in high demand in our neighborhood this summer. Vakor79@yahoo.com June 2018

If your gas heating system is via a boiler and radiators, call John Taylor who is in the list of recommended service providers. Sorry I'm not in a place where I can give you his cellular number which is the only contact I have for him. He is a plumber who worked as one for the government before retiring. Now works on his own and he's good, fair and reasonable. Many in AU Park consider him a treasure. Linda Hughes hugs4linda@gmail.com February 2018

HOUSEKEEPERS/CLEANERS –

Just wanted to share the information about the cleaning company that has been helping me over the course of three years. Anya's Green Cleaning is a female owned local small company that I trust and can't recommend enough. They are very responsive when it comes to communication, either by email, phone or text. They do a thorough cleaning throughout the house and have attention to detail. Besides being great at what they do, they also help the community-they offer free cleaning of the kitchen to the legally blind people in VA. They are planning to expand this service to DC and MD in time. Their email is anyasgreencleaning@gmail.com. Drew.jillian@yahoo.com

We are four households in our street to use Genoveva Saavedra as our cleaning lady, and we are all very satisfied with her. She's professional, honest, trustworthy, conscientious and pleasant. She's from Peru. She now has a few openings in her schedule, and would like preferably to work in our neighborhood. Here's her cell number: 703-371-2434.
Fabienne922@gmail.com January 2018

My wonderful cleaning lady, Catalina Ramos, has been working for me on a two-weekly basis for many years. However, I have come to the realization that I really don't need the luxury of two housecleaning visits per month, and she is now going to come just once a month. This leaves her Tuesdays open, and she has requested that I post this on my local list serves. Her phone number is 301-512-6679. Catalina is an excellent worker, and scrupulously honest.. She is a naturalized US citizen, and has her own car. Please call her to arrange for her to visit your home and estimate how much time she will require, depending on the size and condition of the house. She will then be able to give you a price. Her minimum is \$25 per hour for four hours. Jenny Bland January 2018

INSULATION CONTRACTORS –

We had Harvey Hottel insulate our attic. We interviewed a number of

companies and they were the best and best on price. They did a great job and were very good at explaining everything. It is not a messy job for the homeowner and all equipment came in thru the attic window. It has made world of difference in the temp of our house - the attic is no longer stifling in the summer and a lot warmer in the winter. Barbara Dinsmore barbaradinsmore@msn.com February 2016

JEWELRY, WATCH & CLOCK REPAIRS –

I can highly recommend The Mineral Kingdom in Georgetown for both repairs, helping to design your own jewelry, or for buying unusual high-quality jewelry. Jacqueline Hutman is the owner, designer, and buyer and is one of the most gracious and giving individuals I have ever met. While Bert's can do a simple fix, if it is a piece you treasure and hope to hand down someday. Or if you are in search of an extraordinary purchase. Please call The Mineral Kingdom and speak with Jackie. I have worked with her for over 30 years. You will not be disappointed. LornaWatson waldodog1@aol.com February 2017

Bert's Jewelers, 5520 Connecticut NW, between Livingston and Morrison. I took in my grandmother's engagement ring (the platinum on the inside was getting too thin). They did a great job of keeping the antique elements while replacing the band. Lori Annaheim lannaheim@mindspring.com January 2017

I also recommend Bert's Jewelers. They have resized a ring and replaced a missing stone from a ring and repaired broken prongs. Their price was lower than other area jewelers I contacted. Joanne Levine joannelevine202@gmail.com January 2017

JUNK HAULERS –

Donation Nation is a green recycling organization. They charge but they recycle everything. You can find them on line. I used them to help me clear out my mom's house 2 years ago when she passed away. I have them coming to my house in two weeks to help me get rid of some clutter and furniture I don't need anymore before the start of a major renovation. Donna DeSilva rjodmd@comcast.net February 2018

I use Morris Brown who lives in the neighborhood and has made cleaning peoples' messes his vocation. He is reasonable and honest. He has hauled debris and junk for me and my friends, clients and contractors for over three years and we have not had a problem once. You can call him on his cell at 240-938-3485. PS. KNIFE & TOOL SHARPENERS –

I know ACE hardware will sharpen your knives and are much more affordable

than say Sur La Table. I think it was like \$3 a knife vs. other places that charge by the length of the blade. And if you're an ACE rewards member, you can also use their coupons (i.e., \$5 off your \$25 purchase) towards this. Vicky Marquez victoria.cristina.marquez@gmail.com October 2018

from Javier Brioso. He has a very hardworking and diligent crew. His contact is: javier.brioso@hotmail.com. Lb1119@aol.com April 2017

You'll never forget his name: Ray Charles Claybourne is great at doing the heavy lifting. In spring and summer he mows lawns, in fall he rakes leaves, but in winter he's looking for your garage and yard chores. Think about the chores you have been ignoring because you don't have a truck or the extra energy. Need to move a woodpile? Take the paints to the dump? Clean the garbage out of the garage? We would like to recommend locksmith Colette Surla, whose business name is Door Detail, for inclusion in your next version of this list. She does NOT do emergency work, lock-outs, or things of that sort, but she is an expert

on old door locks such as those found on many old houses in our neighborhood. Her basic charge is \$125, which covers things like broken springs, worn-out parts, etc. most of which she has available in her truck. She can be reached at 301-270-0826. Evelyne and Jim Todd
ejtournesol@verizon.net February 2018

I've used J & G Landscape for several years and have been very satisfied with their design, implementation and standing behind what they do. You can check out their work at my place 4340 Chesapeake St., both the front and back yard, although winter doesn't show off too well. I used blue stone instead of slate but they do slate. MASSAGE THERAPISTS –

I can recommend Margaret Belland. She is in Silver Spring and is also a massage therapist. She is an amazing energy worker/healing touch practitioner. Her number is 301-526-9106. Connie Kurihara conniekurihara@gmail.com January 2019

I would like to recommend Lisa Schumacher at 4000 Albemarle. She is an amazing massage therapist, and knows many different modalities (cupping, myofascial massage, zero balancing, and much more). I am impressed that she works to enhance her knowledge by attending intensive workshops - the latest was a neck/shoulder workshop that was exactly what I needed! My husband is a big fan of her zero balancing, which is very helpful and you can leave your clothes on! She starts every session with a relaxed discussion of your needs so she can better focus on problem areas. Give her a try, you will be glad you did! balancentering.com or 202-244-9588. Joseph Reo, office is in professional building at 5225 Wisconsin Ave., Suite 305 near Friendship Heights metro, next to the red door, or FedEx/Kinkos. Very convenient, and parking is pretty easy, too. He does

excellent therapeutic massage; has fixed some serious problems I've had, and worked with motorcycle crash victims and severely overweight people, and more. Fixed them all. Since I am a massage therapist myself, and have experienced many peoples' work, when I say he is the best I have ever worked with, it carries some gravitas. His number is 202-321-3790. E-mail josephreo@verizon.net and of course he works weekends. Do call him. Lori Annaheim lannaheim@mindspring.com October 2017

MOLD REMOVAL –

We used American Restoration Service (<http://www.americanrestorationservice.com/>) for mold inspection and removal in March 2011 and were very pleased with their work. They were very careful about sealing off the work area, creating negative air pressure, etc., and they did an excellent job of laying new tile and fitting new molding to replace the glued-down vinyl flooring that had to be removed. In fact, we liked the crew so much we inquired whether they were available for general handyman work (unfortunately, no). Lorie Leavy ljleavy@gmail.com May 2012

MOVERS/HAULERS & DELIVERY SERVICES –

Town and Country Movers are very good. Joanne Levine joannelevine202@gmail.com December 2017

Our family just completed a big move and were very pleased with services of V Street Movers. Howard and his crew worked with us to sort, pack, and empty out a large apartment and deliver contents to 5 family homes and a Wider Circle over two days--one for packing, one for deliveries. He'd worked with other family members on three previous moves, some involving long-distance deliveries, each time with excellent results. Howard is personable and professional, his crew very competent, and his fees quite reasonable. He's been working in this area for 17 years. If you contact him for a free estimate, tell him Patrice from the Bregman family recommended him. His phone number is 202-486-4251. Patrice Gancie pgancie@aol.com Dec 2016

For those who need a mover or hauler I had a good experience recently with Quest Professional Moving Services. Calvin, the owner I believe, was responsive and easy to communicate with on the phone. He and a helper showed up right on time to move a heavy picnic table which had taken three men to install. He was very professional in his use of protective wraps and in his safe movements. They were speedy and flexible. I thought his price was right for me, and he seemed to appreciate my tip. His van advertises "no job to big or to small," and he says he means it. His

website indicates he can also help unpack, haul bulk items, etc. The phone number is (240) 604-5998. Email: questprofessionalllc@gmail.com. Here's a link of sorts too:

MUSIC TEACHERS –

My wife Heidi and I highly recommend piano teacher Ruth Rose, who has taught our daughter Catherine (now aged 11) for the past four years. Following a short, unsatisfactory experience with another teacher, Catherine has had a very happy, productive time with Miss Rose, which has included mastering a varied repertoire and performing in quite a few recitals and competitions in the DC area. Ruth Rose, who was trained in Amsterdam, has a degree from John Hopkins' Peabody Institute, and is well known on the Washington-area performing-artist scene, is now accepting enrollments for the fall. She is conveniently located near the Van Ness Metro Station. Her phone: (202) 362-2493. Please e-mail (hdcwinn@verizon.net) or phone (202-364-4350) us for further details. David Winn June 2008

My daughter's guitar instructor-- Brian Gross -- will be offering group lessons beginning 4/12. My daughter has taken private guitar lessons from Brian for almost five years and is very happy with his teaching. Contact Brian at 301-320-6999 or bgmojohands@yahoo.com. jfkhoury@erols.com April 2010

ORGANIZERS –

I can recommend Tracy with Out of the Closet Organizer. She was efficient, helpful, encouraging, pleasant and it worked so well. Here's her contact info: www.outoftheclosetorganizer.com, 571-331-3350. I happened to get an email from her today, first time in a year, so I thought I'd also pass it on. From Tracy: “ I'm offering a great deal on organizing for the month of July only. Schedule 4 hours and receive your 5th hour at no charge. This is a \$75.00 savings who doesn't love a savings? This must be booked in the month of July but only valid through August.” Connie Rhind Robey c_rhind@yahoo.com June 2013

PAINTERS –

I thought Alex Painting and Wallpapering did an excellent job and were much less expensive than the other painters I interviewed. Alex removed wallpaper, sanded, and painted our hallway and three rooms. He was impeccably clean, punctual, and very professional - highly recommend. Heather Hosmer heatherhosmer1@gmail.com January 2019

The extremely thorough and detailed estimate by Image Painting's estimator, Talgat, convinced me to chose this firm over other similar priced offers with very vague descriptions. The three painters that came to paint the inside of my house were professional, conscientious, punctual, careful, detailed-oriented and pleasant! Talgat was in constant communication with me to make sure I was pleased. I am hiring Image Painting in the coming weeks to paint the exterior of my house and I have already recommended them to two friends. The company is based in Falls Church: 703-814-2155. Catherine Vial Catherine_vial@yahoo.com January 2019

Peter Smith has just completed painting our house exterior and was excellent. He was extremely careful with our extensive plantings, building platforms to avoid damage to them. He is a meticulous and skillful worker who takes great pride in his work, including some extra carpentry needed. AND he was quite reasonable - less than some other quotes we received. I heartily recommend him. His contact information: peterestate@yahoo.com.. His phone: 703-237-5622. JRFleming@aol.com July 2018

John Ramirez is great. We have used him several times and he always does good work. His number is 301-455-0226. Sheila Stinson sheilastinson10@gmail.com July 2018

Try Eddie Johnson, at (202) 256-7449?. He's currently painting the interior of our house in Friendship Heights and also painted the exterior of our previous house in Petworth. (He was our neighbor there.) Mike

Madden mikemaddenc@gmail.com July 2018

For house painting I recommend Maximo Painting, who painted by home exterior last year to my satisfaction. (240) 417-6648, maximopainting@gmail.com. Larry Cohen larry.cohen@icloud.com May 2018

I have just had our long time painter do some outdoor painting for us this past weekend, as well as stain a new door and do some indoor dry wall and painting. If any of you are looking for a trustworthy, reasonable and very good painter, I can't recommend Kelvin Trim and his team enough. We have used them for 12 years both in Glover Park and in Chevy Chase. You can reach him at: keltrim62@hotmail.com, 301-575-6768. Frederique Irwin fcampagne@yahoo.com November 2017

I wanted to put in a good word for F&J Painting Inc. We just had a large part of our house painted by them and the work was superior. The painting was perfect. The cleanup was perfect. The price was perfect. F&J was actually \$1,000 less than one of the other bidders on the project. We recommend them. Their number is 301-442-6767. John Natali john.natali@verizon.net May 2017

We also have had excellent experiences with F&J Painting (301) 442-6767). They have painted the exterior of our house three times and most of the interior, and in every case they have been meticulous and pleasant to work with and more than met our expectations (e.g., repairing our aging gates and shutters). Very highly recommended! Janet Wells jcwellsatwdc@yahoo.com May 2017

Haven Construction (240-554-7379) did an excellent job painting the outside of our house. Bruce Klein brucekv@aol.com March 2017

Manuel Sanchez. Many years of experience. Excellent work both exterior and interior. Also does plumbing and electrical. John Dinges jcdinges@gmail.com March 2017

Peter Smith is a meticulous, excellent painter. Email: peterestate@yahoo.com Phone: 703-508-9597. He has painted three houses for us now, and always does a great job. Plus he is extremely trustworthy. Please email me for references: Gail Gorlitz gail.gorlitz@verizon.net. March 2017

PERSONAL TRAINERS –

I strongly recommend Betsy Wittleder at Northwest Sport and Health at 4001 Brandywine St. I used her for several sessions and found that she was very good and very attuned to the issues of aging bodies. She's not a kid. She can be reached at 202-244-6090. Northwest Sport and Health has a number of group classes. There are three "Muscle Up" classes on weekdays at 10 am (Mon., Wed., Fri.). Sounds like these might be what you're looking for.. But first you should have a few sessions with a personal trainer to figure out your needs and fitness level. Kathy Smith kathysindc@gmail.com
October 2012

I heartily second the suggestion for Betsy Wittleder at NW Sport and Health (Brandywine Street). She worked gently with me and gave me a lot of encouragement when she was my personal trainer for 6 sessions. Mary Ann Ryan maryannryan@starpower.net October 2012

If you are interested in a group experience with a superb trainer, not held in a gym with machines, Caroline Gichner may be your answer. At 9 AM to 10 AM on Wednesdays and Fridays, she holds a small class in everything for the body (and the spirits!) at the United Methodist Memorial Church on Nebraska Avenue. She is a responsive, sensitive, cheerful, and attentive teacher, so knowledgeable about the body, so effective in instructing each of us about what is happening as we do aerobic and other exercises. The classes are fun at the same time, encouraging, productive. A leader in the health field, and with her reputation of the highest order, she does lead other classes for various institutions. Her telephone number is 362-4393. You can learn much more by calling her as she warmly welcomes calls, responds to messages left. Her e-mail address is: _cgichner@aol.com. Elaine Greenstone ehgreenstone@aol.com October 2012

You might try out TNT at Tenley Sport and Health. It is group training, which makes it fun and less expensive. The trainer is named Pat and he teaches in the morning and in the evening. Avis Sanders

PET SERVICES – (arranged by type of service)

DOG WALKER - For the past two years, our lucky dog Scout (now three years old, 75 pounds, an active, happy dog) has been heading out every weekday afternoon with Patrick Egan for a good walk, sometimes a good swim, along with a few other dogs. These daily outings, usually at least two hours, give him the fresh air and exercise an active young dog needs. Patrick is attentive, reliable, knowledgeable, and communicates easily with us whenever there is a change in schedule or a health concern related to Scout. But, Scout is about to move away to live with our daughter. I'm posting this message to advise that Patrick is available to take on an additional dog. If you are interested, you can contact him directly by 202 255 2090. We recommend him without reservation – and his prices are very reasonable. Michele Bond michelebond@gmail.com October 2017

DOG WALKER - Ari Fishman is really experienced and reliable. Her number is 301-538-3522. Hedda Garland heddagarland@mac.com April 2015

DOG WALKER - Chris Aden is excellent if he has room for another client! 402-960-8381 or christopheraden070@gmail.com Ann Ingram anningram@mac.com April 2015

GROOMER - We have good experience with mobile dog groomers. We took our

dog to a groomer on St. Elmo Ave in Bethesda for years until they kept her all day and cut her lip. That was it. Since then we have used "Bark In Style". We always get the same groomer, they are prompt, the dog runs out to the truck because she likes it, and she doesn't have to stay caged up all day. The one issue is the price. They are expensive, but they are coming to your house. Bark In Style's number is 202-489-1989. John Natali john.natali@verizon.net June 2015

GROOMER - I have used Smooches Kitties ((202) 723-7387) for years. Our dog is not a specific breed so I don't really care what she looks like, just need her to be shaved down to be cool in the summer and tidy at other times. I have had very good luck with them. The person who answers the phone is a bit hesitant, but bear with her as all ends well. Neighbors use the Dirty Dog Laundry and Bark in Style and I have not heard any complaints from them. Barbara Dinsmore barbaradinsmore@msn.com June 2015

VETERINARIAN - These vets will do routine exams and vaccinations in your home. They will also come to euthanize a pet:

Dr. JD Warford, DC Metro Vet, dcmetrovet.com 877-669-8706

Dr. Karen Randall, Solace Veterinary Services, solaceveterinaryservices.com, 301-674-4123

Vet Dispatch, vetdispatch.com, and 877-400-8387

Dr. Flo Mitchell, (703) 620-3919

Rock Creek Home Veterinary Care, (301) 828-8846

Friendship Hospital also has a list of home care vets on file. I believe that Collins has a vet who also makes house calls. I have used both Rock Creek for care of a neighbor's cats and also Flo Mitchell to euthanize our dog. I highly recommend both. Regarding Friendship - I have had nothing but excellent care there always and did have a 'regular' vet, Dr. Nicola Moore. I saw her regularly for a number of years. Our dog has also been treated by Dr. Logan and Dr. Matthiesen - all of whom are excellent, caring, thoughtful, understanding, and who don't push further treatment if the pet is too sick or old to go through more procedures. Barbara Dinsmore barbaradinsmore@msn.com June 2015

PHYSICAL THERAPISTS –

The Arthritis and Rehabilitation Therapy Services associated with the medical group Arthritis and Rheumatism Associates (ARA) treated me for shoulder pain this past winter and did an excellent job. Shoulder problem is totally gone. You must be referred to physical therapy services by one of the doctors in the medical group which has offices and therapy programs at several locations in the DC area. I have been a patient of one of the doctors in the group for a number of years and used the physical therapy location at 5454 Wisconsin Avenue in the Barlow Building in Chevy Chase.

They have successfully treated other problems for me over the years. The telephone number for medical appointments for all locations is 301-942-7600. Telephone number for physical therapy at the Chevy Chase location is 240-482-3680.. Kay Springwater kayspringwater@gmail.com 2015

Inspired by someone who had the good idea of compiling a list of the recommendations he (or she) received, here I am with my list of PT recs, hoping it'll be useful. Am just passing on the info, nothing to add yet. Malika Maclouf malikamac@yahoo.fr September 2015

- Body works PT, Laura probert <http://lauraprobert.com>
- I can strongly recommend Rose Physical Therapy located downtown near Farragut North metro stop. They take insurance. <http://rosept.com>
- Chris Cousins at DC Physio. Did a great job on my broken upper arm. <http://www.physiodc.com>
- I have had great success with lots of my patients at the National Rehabilitation Network across the street from Saks. 5530 Wisconsin ave. <http://www.medstarnrh.org/our-network/locations/friendship-heights/#q={ }>
- For back pain? Art Sansone. Dupont circle. <http://www.artsansonept.com>
- Summit PT in Friendship Heights. Great in working with Medicare limitations.

When I had my knee replaced, I thought they were very good and they run a tight ship, meaning they keep to a schedule. The clients are much older, mostly post op, but if you go in the afternoon, then there a mix of ages. One of my clients who had double knee replacement went there pre-op and recovered very quickly. He is not doing his post op PT, There is parking in the building, crazy in the am, but better in the afternoon. 301 654-5600 suite 1650, 5530 Wisconsin. You need to book ahead 2-3 weeks in you need PT for several weeks.

- I rehabbed a serious knee surgery with Haim Hechtman and Louise Kelley at Point Performance Therapy in Bethesda (Goldsboro Road near River). They're outstanding. <http://www.pointperformance.com/contact/>
- I had a very good experience with Susan Guardado of VSG Physical Therapy. At Friendship Heights and in my insurance. www.vsgpt.com.
- I would recommend Kibbe and Terle (<http://www.kibbeyandterle.com>) and Restore Motion <http://www.restoremotion.com>
- I highly recommend Terry Sneed and her team at Elite Physical Therapy in Georgetown

And : Dr. Karen Bonney of Elite Physical Therapy. She specializes in a wide range of therapeutic practices including dry needling <http://www.eliteptandwellness.com/>

- Physiotherapy Associates on New Mexico in the medical building next to Chef Geoff's. Brilliant and very good at fitting people in quickly. <http://myphysio.com>

- Jeff Robinson at Core Physical Therapy for chronic neck pain. He's excellent! Core's # is 202/659-2673.
- Holly at Smart Therapy in DC is fabulous!!!!
<http://www.wosm.com/smartherapy/>
- I'd add an enthusiastic recommendation for Got Your Back Chiropractic at <http://gotyourbackchiropractic.com> In the neighborhood at 4900 Massachusetts, Dr. Justin Klein has a holistic approach that includes PT, chiropractic, and a range of other wellness methods. My orthopedic surgeon recommended surgery for my neck problems — thanks to Dr. Klein and his team I'm pain free.

FOR KIDS ONLY

- I would highly recommend Terryl Rosenberg at Sensational Kids Therapy – she can be reached at terryl_rosenberg@hotmail.com . We have been with her for 3 years and she has positively changed our lives forever! And, to conclude, a deterrent :
- Terry Snead's accounting practices leave much to be desired.. For months, they billed me for stuff I did not purchase. Finally they refunded the \$75 they actually owed me, She uses STET and heat and ice that have little therapeutic value. However, her clients are much younger and healthier than those at Sibley or Summit. Although she just moved, the exercise room is a little small.

PICTURE FRAMERS/RESTORERS –

Dodge-Chrome can do digital restoration of an old and damaged photograph, but they don't repair the original photograph. This is what conservators do. I was a conservator of paper artifacts and photographs before retirement from the Smithsonian's National Museum of American History—I would never undertake this sort of work at home without the proper tools and facilities, so no, I'm not fishing for a job. Conservation would involve cleaning the original photograph, removing stains caused by glue or adhesive tape, mending tears and cracks, and putting it into a safe, acid-free enclosure. I've corresponded with the owner of this family treasure, offered to look at the photograph, and to put her in touch with some of my conservation colleagues who would be able to help her. After we've conferred, she might decide that Dodge-Chrome's services are all she needs. Carolyn Long carolynlong@earthlink.net December 2018

I've had great experience with Picasso Gallery on Wisconsin. The owner is a really nice guy and in my opinion has an excellent eye. He is happy to show lower-price options if you ask. Beautiful framing can be really expensive (and is usually worth it!) Ketura Persellin ketura@joyfulcloset.com April 2016

I don't usually rag on small businesses, but I had two pretty bad experiences (one through a Groupon) at the small shop next to Ace Hardware

- I also didn't especially care for their inventory. In contrast, I agree the owner of Picasso is excellent. I vaguely recall he did conservation work at the Smithsonian - great eye and meticulous. Framers Workshop can be fun if you want to save a few dollars and do a portion of the framing, yourself. It's all ridiculously expensive unless you go to Michaels or online. Worth it, I guess. Good luck! Pamela Garlick
pamelagarlick@gmail.com April 2016

I had a good experience with Plaza Artist Materials & Picture Framing in Bethesda on a huge oil canvas I needed framed. They did an amazing job and were good to deal with. I found them on Groupon (they often have great deals on Groupon, so check that out first). I confirmed they were worth a shot based on the reviews I read about them on Yelp. They also have a location downtown around Dupont Circle I think (I have not been to that one). The Bethesda location has free parking. I will definitely use them again; hopefully with a Groupon. Yes, framing is really expensive. I sympathize. Deborah Raviv draviv363@gmail.com April 2016

Another big thumbs up for Picasso Gallery and Abdi Poozesh.
lipkirk@hotmail.com April 2016

My own experience with Framer's Workroom over the years has been excellent. Professional, knowledgeable, pleasant people – all. They will do good work and you can save some of the cost by doing a good part of the work yourself as well as having the pleasure of the moment. However, to save money on my large size wood frames (18 x24 frame for 12x18 photograph, with mat and non-reflecting glass), I've used the online outfit www.arttoframe.com with great success. I'm quite pleased with the workmanship and efficiency. Shipping is from Brooklyn and is reasonable, the package being well packed. They too are quite helpful on the telephone if you have questions or need assurances. Good luck. Ron Springwater
rkspringwater@starpower.net April 2016

I went to the Framer's Workshop on Wisconsin Ave. The frame project would have cost me \$425. Then I tried Frame Workshop in Rockville: 1044 Rockville Pike, Rockville, MD 20852, (301) 468-9500. The same job was \$235. I prefer to support my community that much of a difference was unreasonable. The Frame Workshop did a great job. A. Novak anovak39@yahoo.com April 2016

I have been using Framers Workroom for many years. Thomas, the manager, is just the nicest person. They are well aware of conservation practices and don't use cheap acidic materials that will ruin your artwork. I'm a professional artist, former paper conservator at the Museum of American History, so this is really important to me. Whenever I finish a new piece, I have them cut the mat, the ultraviolet-filtering glass (to prevent the

art from fading), and the pieces of frame stock. They call me when my order is ready and I pick it up and assemble the frame on my big worktable at home. Most people do the assembling at the shop with help from the staff. Yes, framing is expensive, even when you do it yourself, but that's the way it is everywhere. Carolyn Long carolynlong@earthlink.net April 2016

Picasso is my only choice for framing. The owner has a superb eye for color as well for frame and matt color combinations. He is quiet thoughtful person. The shop has wonderful selection of frames. When I see my finished framing projects, I always marvel at the results. Framing is expensive in this city. Real estate and inventory are a large part of a frame owner's cost. I also perceive that framing quality, in large part, is in the eye of the beholder. Ann Eichenberger aeichenberger@gmail.com April 2016

I also have used the Framers Workroom for many years and have been very happy with their services. The reason professional framing is expensive is because good framing is time-consuming. I have tried doing my own framing, and every step is difficult, from getting a picture centered in the mat, getting the corners of the frame to be at perfect right angles, getting the glass perfectly clean and streak-free, and getting all the dust specks off the glass, mat, and picture before closing up the frame; it can take at least an hour, often more. Conservation-grade materials also are expensive. Plus, you are getting the benefit of professional framers' training and expertise. Jo Levine joannelevine202@gmail.com April 2016

Picasso Gallery is the best and I have used them for many years. Aijacelb1@aol.com April 2016

PLASTERERS –

We have used Eight Brothers on Wisconsin Avenue in Glover Park. Very knowledgeable, neat and tidy, did a fabulous job. They also do very good drywall work. I would highly recommend them. Barbara Dinsmore barbaradinsmore@msn.com May 2014

I HIGHLY RECOMMEND Paz Lara, a painter (interior and exterior) and plasterer. Paz is extremely thorough and meticulous. Just last week he repaired a bedroom plaster ceiling for me and he did an excellent job. He has painted my entire house twice and did a far better job than University Painters whom I had hired previously. I use him for all my painting needs and he also has worked for at least two of my neighbors repeatedly over the years. I introduced him to another neighbor last week for a rather difficult job which a previous painter had failed to do properly, and that neighbor was extremely satisfied and will become a repeat customer for Paz also. His home phone is 301-933-1127 and cell phone is 240-372-7260.

Elinor Tucker elinor_tucker@yahoo.com May 2014

My housepainter, Roger Jiminez, does meticulous prep work. When he painted the 1st and 2nd floors inside my house (last fall into winter), he restored several ceilings that were in godawful shape; in some cases, he had to go down (or up, as the case may be) to the wood before restoring and replastering, etc. Now, you can't tell at all which ceilings were distressed, as they all look terrific! Roger Jiminez's (HIM-in-ez) telephone number is: (240) 425-2824. Leslie Rod May 2014

Juan Sanchez is careful, courteous, and does beautiful work..

I highly recommend Julio Garcia of American Drywall & Paint, Inc. ((571) 436-5128) who was referred to me by a friend who had used him. Last year, Julio and his crew removed unattractive texture from my living and dining room walls and ceilings, repatched and repaired damaged sections caused by a roof leak, replastered and painted. The walls and ceilings are now perfectly smooth. I cannot recommend him highly enough. They were so pleasant to work with, and took great care in prepping the hardwood floors and other surfaces to protect them from the resulting plaster dust. The cost was the most reasonable of the bids I received. Julie Mack juliemack1@verizon.net May 2014

PLUMBERS –

The owner and his employee are both master plumbers -- and masterful at the work of diagnosing and repairing. I have successfully used them (both, at 2 different times each, once together for a larger job) found them in Checkbook's listing, where they seemed to be the highest local group for quality of service, but not checked there for pricing. However, my experience has shown them to be honest and honorable with their charges being more than fair, not that high in cost partly because of their honesty and trustworthiness, and their efficiency -- and also experience which makes them so knowledgeable, therefore able and quick to do the work. They do this with care, great neatness, obvious skill. While I do not have a contract with them -- don't think they offer this -- they do understand priority, have always responded promptly, were here almost immediately at a late hour for a semi-emergency. I recently met a woman who said she knew of the company as I began boasting of my luck at finding them; she had used them twice in the past, and had the same true regard for them, praising their competence and work. The company is George the Plumber. Owner is Mike Xeron, a very caring person, son of the company's founder, other master plumber is James. Phone number is: 301-681-8527. See the website for more information. Elaine Greenstone ehgreenstone@aol.com July 2018

I've employed a number of plumbers over the years, and BY FAR, the very, very best ever is Ronan Arronovitch, who is employed by COOL-BREEZE in Kensington (and may well be a partner in the firm or a co-owner.) They do a full line of HVAC* work, and Ronan is, I suspect their main guy for plumbing.. If you do hire him on, kindly tell him I recommended him. I've used him for semi-major jobs of work and a number of lesser ones, all superbly carried out. For an annual checking of our [gas] furnace] they sent another fellow who, was equally competent. I was surprised not to see a recommendation for George the Plumber among the postings on this subject. His son, Mike, is absolutely fantastic!

Mike's a Master Plumber, he's easily contactable, comes when he says he will, does good clean work, obviously cares about the quality of his work, and really enjoys the work and interaction with homeowners. Can't speak highly enough about him!

Elissa Free elissabill@gmail.com July 2017

John Taylor is the best plumber we have ever used. He can be pokey in getting back to you, only because so many people call him. He has solved several difficult problems we've encountered in our 1937 house. He is a gem. Cathy Hotka cathyhotka@yahoo.com February 2017

We had John Taylor install a drain for our new kitchen sink in December. He gave us a fixed quote up front, did a thorough and clean job, and finished when he said he would with no surprise charges. Previously, he also snaked some drains for us and installed a new sink in our powder room. Reliable, punctual, good old-fashioned work ethic. Thumbs up. Jason Kim pereirakims@verizon.net February 2017

We used John Taylor last month to replace our water shut-off valve and some piping. We were very pleased with his work and cost of his service. The work Mr. Taylor performed for us required extensive coordination with DC Water (who quite frankly gave us conflicting information and instructions). As a consequence, Mr. Taylor made several trips to our home to complete the work. We expected a large bill, but Mr. Taylor's fees were very reasonable considering the time he spent on the job. And, he was very responsive to our calls to him. I would not hesitate to use him for any future plumbing work. Ken Hurley kenwashdc@yahoo.com February 2017

Call Urban Alarm. The owner, Miles Fawcett, lives in CP. I much prefer them to the big impersonal companies. I carefully interviewed and got prices from 3 or 4 companies when we put in this system. SOLAR PANELS –

Our information is that you can install solar panels on a slate roof, but it involves replacing some of the slates with more flexible faux slate, which is what our project proposes. A benefit is the shade provided by the solar panels actually protects the roofing material and extends the life of the roof. There is another approach, which is to replace the slate with solar slates, special technology that combines roofing material and collector in one product. There is a house on Fessenden done with solar slate. These are more expensive than the racks, but since you will be buying roofing anyway, it might actually be a superior option- just guessing, not an expert on solar. Before forging ahead on your own, it might be worthwhile to talk to Kirk Renaud of Common Cents Solar. They have a brilliant approach that involves group buying, which saves a great deal of the cost, includes information without the sales pressure/bias, and gives the advantage of bargaining as a group instead of a one-time job. Common Cents Solar, 4330 East West Hwy., Bethesda, MD 20814. (301) 961-5940, (301) 961-5943 fax. Kate McLynn kdmclynn@starpower.net May 2009

Having just gone through this process (well, last November) and gotten estimate from several companies including Common Cents Solar, I have a few hints and recommendations: First - get three or more estimates (most estimate are free, the only company that charged us for an estimate was Common Cents. They called it an evaluation, but it produced the same report as the other three companies did for no charge; however, Common Cents will apply the fee to your system if you buy from them.) Second - Do your homework before the companies come out so you understand what you are getting. Every company sells different size panels and the panels are of different efficiencies. The most efficient system generates the most electricity. This was very important to us as we had limited space on our roof, so we wanted the most efficient system that we could get. If you have

unlimited space, that might not be as important, but you should know this before you waste your time looking at lower efficiency panels. There is also a price difference as you move up in efficiency. Third - Ask questions on the phone before the contractor comes out so you know what the company sells and whether it suits your needs. Again - how important is efficiency to you and how much room do you have? Another question is what to do with your RECs (these are renewable energy credits that you can sell). Find out if the company will broker your RECs and what is their fee. Decide if you even want to sell your RECs (we don't at this time.) Fourth - Do your own homework on the incentive programs. Just google "solar incentives Washington DC" (or where ever you are). You will find a wealth of information about incentives. Call the numbers associated with the incentive programs and find out if they still have money to give away. DC has a great program, but I don't know if it still has money to give away. The money goes pretty fast. The Montgomery County property tax incentive has run out of money and isn't going to be re-funded for solar. Fifth - go to a site like Solar-estimator.org or pvwatts.org. Solar estimator lists contractors and rates them. Both sites have a wealth of information about all things solar. Some of these things I did and some I wished I had done. I definitely wasted a lot of my time and contractor's time because I didn't understand how the system worked. One contractor told me that he could put panels all over my roof - 18 in all; however the other three I had out told me that "no, it wasn't possible to put so many up because my dormers shaded the roof for significant periods of time." Once I understood how the system worked, it was clear that 18 panels would be a waste of my money. I was also misled by contractors about the incentives. They were not as up-to-date with the funding as they could be. Only one contractor told me that Montgomery County had run out of money (which was true as I verified with the county). The other contractors told me that the county would give me \$5,000 tax credit. That would have made my system almost free! Too good to be true? Yes unfortunately it was! We ended using Capital Sun - they are a local company (Cabin John) and have been in the business for 30 years or so. Early pioneers. We have 2kW and we are very happy with the whole thing (actually, almost giddy!). Unfortunately, we are now weather obsessed and all this rain is so much the worse because we can't make any electricity! Sarah Morse morsekathan@gmail.com May 2009

We always call Red Top Cab (<http://redtopcab.com/>) to take us to National Airport. They don't do destinations in DC. I don't know if they'll take you to Alexandria, but you can try them. On the occasions when our car has been non-operational and we've needed a cab to come to our house and take us to an event in DC, we've tried Yellow and Checker and they come very late or not at all.

Carolyn Long carolynlong@earthlink.net October 2015

I highly recommend Mr. Ronald Reed who is the owner-operator of his own taxi. The vehicle is spotless and he is engaging and quite the gentleman. We once exchanged life stories in a ride to an airport. While I have never had him wait for several hours for me, I suspect he will be open to the suggestion. Catherine_vial@yahoo.com October 2015

I've been using Diamond cabs my whole life, and my parents before me, but I rarely use cabs these days. The wonderful thing about Diamond is that you can reserve a cab in advance IF you are going to a point of departure--airport, railroad station, and, I imagine, bus station --or a medical facility. The cost to Dulles has decreased since cabs went to meters, and if you will be away more than a few days is very cost effective

compared to the long term parking lot. I then take the shuttle home, when time isn't of the essence. Harriet Dwinell hdwinell@aol.com October 2015

I too am a huge Diamond Cab fan. Always very quick on arriving, drivers actually know where they are going and know very quick routes, always courteous and pleasant and I love the dispatch lady. I use cabs frequently and this company is my top choice. Deb debmorris3@aol.com October 2015

I have relied on Red Top over the past 20 years for service to Dulles and National. They have never failed to appear on time or, more often, ahead of schedule. They also offer car/limo service in two or three categories, the lowest of which is only marginally more expensive than a taxi and apparently is not bound by the same restrictions as VA taxis operating in DC (e.g. they can make a second stop in DC on the way to the airport). TREE SERVICES –

Shifflett Tree Service 301-948-5554 was recommended to me by Barbara Balman (barbarambalman@gmail.com) who has her own landscaping business. I used them several years ago and then again just recently. They do a great job and are quite reasonable. It's a family run operation and the member who gave me an estimate talked me out of doing something, even though it would have meant greater profit for them,. Really professional. Kathy Smith kathysindc@gmail.com October 2018

I highly recommend Branches Trees.. They have done an excellent job for me in the past and in the wake of the recent storm, which toppled two enormous pine trees in my yard. Martha Hamilton marthahlhamilton@yahoo.com March 2018

If you are looking for a certified arborist and not just a ' tree guy' I highly recommend Northern Woods in VA. Bob Blakely owns the business (and as an aside his daughters are the Fabulous Pie Sisters bakery in Georgetown) and has highly trained staff including climbers, lots of equipment including cherry pickers. We have used them a number of times and they are highly qualified. None of the arborists come cheap as their risks are great, training is extensive and insurance is sky high. UPHOLSTERERS –

I've used Yi's Upholstery in Rockville for this.. They did a very good job, but may be more expensive than some other options. Jean Bolan bolanjc@yahoo.com November 2018

I recommend George Russell of "Humble Hands Upholsters". Contact at 202-957-4009. He did an excellent job for me on an armchair and ottoman. Marion Connell mconnell@gmail.com November 2017

I visited Rockville Interiors because I was in the area and in need of an upholsterer for my sofa and chair. I immediately liked Gabriella's and Esther's service. They listened to what I wanted and helped me select a few books with fabric reflecting my tastes. I took the fabric books home and selected numerous fabrics and was able to get an appointment within a

week for Ester to come by. She helped me select the fabrics to use on my furniture, based on the colors of my living room, furniture size, durability of the fabric and last but not least, my budget. Esther also gave me great advice on a rug for the room and how to make minor changes to the dining room adjacent to my living room for the décor to blend seamlessly.. Both Esther and Gabriella are a delight to work with – always listening to me and helping me put my own decorating skills to use. The quality of the workmanship on the upholstery is superb, the cost was competitive and to top it off, I ordered the work on Oct. 11 and asked for it to be completed and delivered by Thanksgiving. It was completed and delivered on Nov. 12! I HIGHLY recommend Rockville Interiors! Anne Novak novakamj@msn.com November 2017

I have had several items reupholstered recently from Yi's Upholstery in Rockville. Their work is excellent and meticulous and the turn around is very good. I used my own fabric but you can purchase fabric from them. They offer pick up and delivery service for an extra charge, but well worth it. Their prices are quite reasonable. 12200 Parklawn Dr, Rockville, MD , (301) 770-3687. Beverly Branfman bjtash@gmail.com November 2017

If any of you need a great upholsterer, I strongly recommend Horacio Hernandez, and his H&C Quality Upholstering: 410-892-3307, horacio1215@gmail.com. He did an excellent job for a reasonable price on several pieces of furniture for me. He is also very responsive and cooperative. I am very satisfied with his services. I asked for upholstery recommendations a few weeks ago and got these very helpful replies. I contacted all of these folks, sending pictures and dimensions, and got responses from all of them within two days—and generally within a couple of hours. Their prices all were in the same ball park. I eventually went with Horacio because he texted that he'd be out that afternoon with fabric samples.

--I've used Mr. Lee for years. He's efficient, careful and very reasonably priced. Comes to your home, has fabric samples, pickup and delivery. C -

--I recommend Horacio Hernandez, H&C Quality Upholstering. 410-892-3307. He comes to your home for pick up and delivery of the furniture item. He doesn't represent any particular fabric company but he brought me books of fabrics of many types and gave me large size samples so I could gauge how the furniture would look in my home once it was done. I had a very special antique couch that involved quite complicated fitting and seaming as well as restoration of the wood and the fiber filling of the cushions and base, so it was a major task. He did an absolutely gorgeous job. I found Horacio through the Colonnade on Tunlaw Road where he has customers. He has worked for years in Washington and I was very pleased to be referred to him. --Nelson Distasio Nelson Upholster. <http://www.nelsonupholstery.net/>. He does perfect work; competitively priced; picks up and drops off in our neighborhood. He does not sell fabric -- so it is not a business that brings samples to your house and then gets the upholstery done. He is a great upholsterer, period.

--Yi's is the hands down best there is in Rockville. Pick up and delivery too depending on the piece. Here is what they did for us. Very professional and helpful. 301 770 3687. Parklawn Dr., Rockville

Yi's in Rockville. Excellent. Sarah Horsey sarahhorsey@gmail.com May 2017

I had a very bad experience with Yi's and would not recommend them. I brought cushions for a Barcelona chair and asked them to make a copy using a different fabric. They asked if they could take the cushions I provided apart, and I said no, I needed them. They either ignored this or lost my original cushions, which they never returned. When I called to discuss, they immediately were nasty, said they would give me X in credit for fabric to replace the cushions, and that if I didn't like it, I could sue them.. I sort of wish I had - the cushions cost so much to replace that I never have, and I don't have a matching set anymore. Elizabeth Berry Elizabeth_berry@msn.com May 2017

UPHOLSTERY CLEANING –

We have had this person clean upholstery and carpets for us several times and have been very satisfied with the work: Quality Pro 240-372-7477. Jeffrey Drobis jeffdrobis@gmail.com December 2015

We recently used Heaven's Best (202-882-1888), which was recommended on the service provider list. We planned to clean and donate a modular sofa that we thought was beyond hope. The sofa was cleaned so well, we decided to keep it. Laura St. Martin watsaint@gmail.com December 2015

WATER TREATMENT –

I would strongly recommend John Wolford, who can be reached at jhwolford@betterwatertreatments.com . John is extremely knowledgeable, very pleasant to deal with, and reasonable in his pricing. He very efficiently handles a large array of different water treatment gear in our residence, and I never have had the occasion to complain. You may call me for more information, if you wish. WET BASEMENTS –

There could be many causes of leaks as has been stated on the list. But for your peace of mind I advise you to call Peter Glaser who lives in the neighborhood. He's a small contractor who has been doing basement waterproofing and renovation for decades here and is an honest tradesman. He knows the ins and outs of water seepage as well as anyone, and if it is a simple matter to handle he'll tell you. You can reach him directly at 202-446-3833 or using email atpeterglaser@msn.com . skoplo@yahoo.com August 2018

We used an outfit called Shorb Landscaping to re-grade our yard - contact there is Todd Kellner, phone 301-897-3503, and it seemed to do the trick. However, in addition to re-grading, I had them dig out the entire foundation and coat it with a tar-like substance and then cover that with parge. With the labor involved, this was VERY expensive. Good luck! Jim Todd ejtournesol@verizon.net July 2018

I can highly recommend John Bryant, at Aquaguard Waterproofing. He is the best at what he does and truly cares about providing his clients with a solution, not just a “fix”. 443-244-2795?, jbryant@aquaguardwaterproofing.com, <https://aquaguardwaterproofing.com/>. John is also a National Director, with the Basement Health Association. <https://basementhealth.org/about/bha-leadership/>. Chris Dietz chris@dietzdevelopment.com July 2018

I second Aquaguard.. They are great. Anna Kessler anna.kessler@verizon.net July 2018

J&G landscaping. I had to put in French drain outside a few years ago. Not cheap but worked. If you do drain make sure you use an experienced contractor. Re-grading & directing downspouts away from house help. C. Kemper kemperc47@gmail.com July 2018

Please give a shout-out to Turf Center Lawns and especially to Mr. William

Patton, Sr. at 301 384-9300. He, especially, is genius at figuring out drainage issues and correcting them. Mention your specific problem to save time but I'm quite sure they can take care of underground downspout extensions for you. He is also very good at determining the least costly solution. A contractor to avoid: J&K Waterproofing/Oscar Anaya. We were looking for a contractor to redo a basement apartment. The project included two distinct components—the first dealing with the walls and ceiling and the second dealing with the floors. We contacted J&K Waterproofing/Oscar Anaya and received a bid for the first component. When J&K Waterproofing/Oscar Anaya came to visit the basement no measurements were taken and no effort was made to look under the existing ceiling to assess the extent of the work to be done. We received a bid that appeared reasonable but was a lump sum without any detail, particularly a breakdown of the various jobs to be performed or their cost. Shortly after work began J&K Waterproofing/Oscar Anaya started to ask for cost increases on the grounds that work not included in the bid had to be performed. This occurred several times. By the time work was completed the total cost was 60% over the original bid! We asked J&K Waterproofing/Oscar Anaya to provide us with a bid for the second component. There too we received a bid that was basically a lump sum without a breakdown of the various jobs to be performed and their cost estimate. We requested J&K Waterproofing/Oscar Anaya to provide us with the details of the bid, including a list of jobs to be performed and their respective cost. J&K Waterproofing/Oscar Anaya refused to provide a detailed cost estimate. We then contacted another contractor who did provide us with a detailed cost estimate. That contractor did the work to our full satisfaction without asking for any cost increase. In fact that contractor did some additional work without charging us. My go-to person for broken sashes and window repair is Colonel Josh Services, LLC <http://www.cjsllc.org/> 202-631-3376. He comes; he fixes your sashes and window problem and hopefully you'll never need him again. It's been about 10 years now for us and they still work. (I can't say that

about the first person we hired to fix the sashes!) Sarah Morse

I had a good experience recently with Vinyl-Lite Windows: sales representative Ashley Becker was very helpful. I knew zero when I started the process, and needed to have all windows replaced on a rental property.. Their showroom is out in Lorton, VA and a visit there was incredibly helpful in learning about and seeing all the different types of windows, glass, and options.. They actually fabricate the windows themselves. Also, Checkbook Magazine did a great article on windows a year or so ago, which was helpful. I am pleased with the outcome, and the price was the best for what I wanted. silverjoan@yahoo.com November 2017

WINDOW WASHERS –

Recently I sought recommendations from the community bulletin board for a window washing service. I received three recommendations for I & J Services, LLC, 301-933-2598. I reckoned that the company must be providing good service and decided to use them. I was very impressed that the workers (a crew of 2) arrived precisely on time and were very organized (one worker cleaned the windows inside while the second one worked outside). They were courteous and left the windows sparkling. Also, the price was very reasonable, significantly lower than other estimates that I received. I am happy to recommend this company. kenwashdc@yahoo.com

I have used Windows Only (301-424-1426) many times. They may not be the cheapest, but they are wonderfully thorough and take great care with complex old storm windows. I recommend them enthusiastically. Harriet Dwinell hdwinell@aol.com February 2017
