ANC 3F RESOLUTION REQUESTING DPW AND MPD TO WORK TOGETHER TO ADDRESS THE
PROBLEM OF SPEEDING ON RENO ROAD

Whereas:

Two automobile accidents occurred near the intersection of Reno Road and Warren Street, NW on January 10, 1999, resulting in serious personal injury and property damage.

Speed may have been a contributing factor in these accidents as well as ice on the roadway;

Residents of ANC 3F have observed that traffic on Reno Road often moves faster than the posted speed limit of 25 miles per hour and that this poses a threat to the safety of pedestrians and vehicles;

Therefore,

Be it resolved, that ANC 3F strongly encourages MPD and the Bureau of Traffic Services, DPW, to work together to identify and implement methods for controlling the speed of traffic on Reno Road and ensuring that drivers adhere to posted speed limits, and to involve the residents of ANC 3F and other affected ANC's in these efforts.
